

RAIL PARLEY ENDS
WITH NO DECISION
IN WAGE DISPUTE

Companies Decline To Consider Demands Further.
WANT VOICE OF PUBLIC
Demands Will Reach Close To Billion Dollars.

Washington, April 2.—Settlement of the railroad wage dispute today awaits the action of President Wilson.

With the representatives of the railroad executives refusing to continue the bipartisan wage conference, the entire question is turned over to the railroad labor board which is to be created under the Cummins-Esch bill.

Washington, April 2.—Wage negotiations between the conference committee representing the railroads and the unions were broken off last night when the railroad representatives declined to continue consideration of demands which have been estimated to total \$1,000,000,000 unless the public was given a voice in the proceedings.

Under the provisions of the transportation act, the wage controversy now will be referred to the railroad labor board, which is yet to be appointed by President Wilson. The law provides for three representatives of the public on this board.

Disagree As to Meaning
E. T. Whiter, chairman of the railway executive conference committee, announced the decision in a statement which said the two sides were in disagreement as to the provisions of the transportation act. The union representatives were said to hold that the law contemplated an agreement between the railroads and the employees prior to any opportunity for participation by the representatives of the public.

The railroad committeemen held that such an agreement might be reached, but that they did not believe that "Congress ever contemplated that a controversy involving so great an addition to transportation costs and in which the public is therefore so vitally interested, should be disposed of by direct negotiations."

CONFIDENCE MEASURE
TENDERED NITTI BY
ITALIAN PARLIAMENT

Rome, April 1.—(Delayed)—A resolution expressing confidence in the Italian government headed by Premier Nitti was adopted by the senate today by a vote of 107 to 11. Before the vote was taken the premier made a speech declaring that Italy is anxious to enter into negotiations with Jugoslavians at once for a settlement of the Adriatic dispute.

"Russia must be rehabilitated and we must place Germany in a position to produce in order to maintain the equilibrium of Europe," said the premier. "If the ex-kaiser was responsible for the war the German people have already paid their share for the crime. The Italian policy will be to appeal to all European forces to help. There can be no complete restoration of Europe without combined effort."

Premier Nitti said Italy did not want violence in Turkey but desires troops there for the protection of the Dardanelles and the Bosphorus and for traders who are exploiting the riches of Asia Minor.

SUFFRAGE DEFEATED
IN DELAWARE; MAY
COME UP AGAIN

Dover, Del., April 2.—The ratification resolution to make Delaware the thirty-sixth state necessary to write the woman suffrage amendment into the constitution of the U. S. went down to defeat in the house of representatives late yesterday.

The vote was 22 to 9, but before the result was announced three members changed from aye to nay to place themselves in a parliamentary position to move for reconsideration and one member who was not down as voting asked to be recorded in the negative.

This made the official vote 26 nays to 6 ayes. Eighteen affirmative votes were necessary to pass the resolution. After the vote the house adjourned until Monday.

Failure Believed Sure
In a parliamentary sense, according to the rules of the legislature, the suffrage question is not dead for the special session, but legislative leaders generally conceded that the hope for affirmative action in both houses is a forlorn one.

An identical resolution is still in the senate, where suffragists claim a majority of one. After the defeat of the house resolution Representative Lloyd, Republican, and an anti-mover to reconsider and it was voted down.

SENSATIONAL TESTIMONY
PREDICTED IN NAVY PROBE

Admiral Sims Completes Case Against Department; Daniels Will Present His Side With Testimony of High Officials.

Washington, April 2.—With the completion of Admiral William S. Sims' case against the navy department, which has been going on for weeks before the sub-committee of the senate committee on naval affairs, the investigation today started in on its last phase, namely the presentation of Secretary Daniels' case.

Among the witnesses to be heard are Rear Admiral Rodman, Rear Admiral Niblack, Rear Admiral Straus, and other high officials of the navy, and friends of the secretary predict sensational developments before the testimony is all in.

SUFFRAGE NOT
HOPELESS SAYS
WOMAN LEADER

Still Chance Of Passage In Delaware Asserted.

Washington, April 2.—The suffrage fight in Delaware is not lost yet.

That was the message Miss Alice Paul, of the national woman's party, brought today when she returned from Dover where the lower house of the Delaware state legislature yesterday defeated ratification of the suffrage amendment.

A motion for reconstruction of the vote, by which ratification was defeated will be introduced early next week, Miss Paul stated.

"The sentiment for ratification throughout the state is steadily increasing and the legislature, we are confident, must sooner or later follow the will of the people of the state," she added.

North Carolina, Vermont and Louisiana also held hopes for the suffragists. The Vermont situation is rather uncertain, however, and there is no definite assurance that the governor of that state will call a special session of the legislature to act upon the suffrage amendment.

Governor Bickett, of North Carolina, has promised a special session of the legislature there in June or July and suffrage leaders here feel that with President Wilson's support they can secure ratification in North Carolina. It is also felt that the president's influence could secure ratification by Louisiana.

ADDITIONAL LOANS
BY U. S. EUROPEAN
COUNTRIES OPPOSED

Chicago, April 2.—Further loans by the United States to European nations were opposed by Frank A. Vandierip, former president of the National City Bank of New York in a statement made public today. "At least another year will have to pass before a number of the nations of Europe obtain political stability," said Mr. Vandierip. "It will be time enough then for American banking interests to consider loans to Europe and even then it will be premature for official negotiations."

Mr. Vandierip stopped in Chicago en route to Seattle where he will meet a party of American business men who are going on a trip to Japan.

BUREAU ADOPTS
A NEW TEST FOR
ACCURATE WATCHES

Washington, April 2.—The bureau of standards today initiated a new test to serve as an additional standard for issuing certificates for watches. Succeeding trials will be begun each week.

In undertaking this work the bureau announced that its purpose was to establish a test which would rank a certificate to a watch of the better grades now on the market but which will not pass the class A test, and to give this quality of watch the merited stamp of approval which formerly has been lacking. The test lasts 19 days, during which a watch is tested in five positions and three temperatures.

FORMER RESIDENT
OF JAMESTOWN DIES

James January, aged 71, former resident of Jamestown, died Thursday morning at his home in Washington, D. C., of paralysis, the result of grip.

Mr. January was born and reared on a farm east of Jamestown, and lived most of his life in Jamestown. He moved to Washington in 1917. Surviving him are his widow, one son, John, of Kansas City, and a daughter, Miss Mae, who is a teacher in the public schools of Cleveland. The body will be taken to Sabina for burial, arriving Saturday morning, and funeral services will be held at Grassy Run Friends church.

ALLIES ARE SILENT
ON U.S. PROGRAM
WITH GERMANY

Policy Of "Watchful Waiting" Toward America.

REFUSE TO COMMENT
Plan For Separate Peace May Be Serious Matter.

London, April 2.—The allies have adopted a policy of "watchful waiting" towards the movement in the American congress to declare peace with Germany by proclamation instead of ratifying the treaty of Versailles.

Prominent allied statesmen were asked for opinions as to possible results in European affairs if the United States should enter into a separate peace with Germany, but they were reluctant to discuss it. They made it plain that comment upon American affairs at this time might be construed as "interference." This is an accusation that all are anxious to avoid. Premier Lloyd George, before his departure for Wales on a vacation over Easter tide, was asked for an expression of opinion but he was cautious on this delicate subject that he would not even explain why he refused to give the interview.

Former Premier H. H. Asquith, who was approached just before he departed to spend the Easter parliamentary recess out of town, was equally uncommunicative.

"I do not care to be quoted on that matter," said Mr. Asquith.

An indication of the viewpoint of the allied statesmen was contained in a brief statement from Premier Lloyd George's secretary, who said: "A separate peace between the United States and Germany undoubtedly would be a very serious matter which would be gravely considered."

Sir Auckland Geddes, the new British ambassador to the United States, was unable to give an opinion because of his delicate diplomatic position.

A. Bonar Law, member of the British peace delegation, was absolutely reticent.

The course of the peace debate in the United States senate has been followed closely in official circles, and this interest has been intensified by the resolutions introduced in the American house of representatives Wednesday for peace by proclamation.

INVESTIGATION
OF CO-OPERATION
OF PACKERS UP

Activity of Department of Justice In Campaigns Aired.

Washington, April 2.—Investigation of co-operation between the department of justice and the beef packers in various campaigns conducted by the attorney general, was taken up today by the house agriculture committee, before which Attorney General Palmer appeared. Speaking of the testimony of L. D. H. Weld, statistician for Swift and Company, who said the firm he represented was "co-operating with the department of justice" in the furtherance of the "cheap cut" campaign being conducted by the department, by Chairman Haugen, Republican of Iowa, said:

"We want to find out just what co-operation means. We want to find out whether the packers are financing the governments campaign, as has been charged. Mr. Weld stated that that if the campaign to get the people to purchase cheap cuts is successful it will result in increased meat prices. The committee wishes to know why the department is doing something to increase meat prices."

The department of justice and Attorney General Palmer in particular has not explained to this committee why the packers who were believed to be guilty by Mr. Palmer according to his testimony before the senate committee, were not prosecuted.

TRY TO SWING
ILLINOIS DELEGATES
TO HOOVER

Chicago, April 2.—Efforts will be made to swing the 58 Illinois delegates to Herbert Hoover if Governor Lowden fails to land the Republican presidential nomination, according to a report current among Republican politicians here today.

It is declared by observers closely in touch with G. O. P. moves that there is no chance that the Lowden delegates can be swung to Wood, owing to a bitter personal feeling said to have arisen between Wood and Lowden because of the fight Wood is making in Lowden's home state.

FIGHT IS FATAL

Thompsonville, Conn., April 2.—Three men were stabbed one possibly fatally, in a street fight between seven Italians early today. The trouble arose over the men throwing popcorn at each other in a moving picture theater.

OHIO CITIES SHOULD LICENSE
LANDLORDS DECLARES GOVERNOR

Columbus, O., April 2.—Opposing a special legislative session, Governor Cox favors adoption by Ohio cities of a uniform ordinance designed to curb rent profiteers by licensing landlords.

This became known during the conference here between the governor, Attorney General Price and city solicitors representing all sections of the state. The conference was called by the governor for the purpose of exchanging views as to the most effective method of combating the evil of extortionate rentals.

In accordance with the governor's suggestion, the following committee was chosen to draft a proposed ordinance: City Attorney W. S. McConaughy, Dayton, chairman; Attorney General Price, law director; James S. Martin, Toledo; John D. Marshall, Cleveland law department; City Solicitor J. H. Leiginger, Youngstown.

EXPECT TRIAL VERDICT
AGAINST EX-PREMIER
BY MIDDLE OF MAY

Paris, April 2.—The curtailment of evidence in the treason trial of former Premier Joseph Caillaux probably will enable a verdict to be reached the middle of next month. Instead of July, as originally predicted, it was stated today by Deputy Moutet, one of the lawyers for the defense.

M. Caillaux himself believes there is a chance of acquittal but most of his friends expect that he will be found guilty and will be given a mild sentence of punishment. M. Caillaux's lawyers believe that the verdict will carry reservations that will enable the defendant to rehabilitate himself.

WILSON IGNORES
GEORGIA MATTER

Washington, April 2.—President Wilson has entirely ignored the incident in Georgia, where his name was filed in the primaries and then withdrawn, it was stated at the White House today. He has made no comment on the matter.

White House officials believe that many of those who signed the petition placing the president's name on the primary list in Georgia, did so in good faith but withdrew their names when they learned that it was an effort to force the hand of the president on a third term.

RAIL MEN STRIKE
ON REMOVAL
OF CONDUCTOR

Chicago, April 2.—Because of officials of the Chicago, Milwaukee and St. Paul railroad removed John Granau as a yard conductor here, 700 switchmen employed by the road went on strike, and its service was crippled today. It was reported that a strike vote is being taken by switchmen employed on the Rock Island lines, but this was denied by a union official.

CITY MARSHAL, 80,
KILLED BY HORSE

Effingham, Kan., April 2.—Glenn Rousey, eighty, believed to have been one of the oldest city marshals in the state, was killed here a few days ago when he attempted to stop a runaway team of horses.

Losing his grip on the bridle rein of the "high" horse, Rousey fell to the ground and the loaded wagon passed over his body, crushing his chest and fracturing his skull.

PLANS AERIAL
TRIP OVER WORLD

Paris, April 2.—Captain Marshall, of the French aviation service, plans to begin the first aerial trip around the world next November. The itinerary calls for a flight from Paris to Dakar, thence to Pernambuco, the United States, Japan, China, the East Indies and return to Paris. The machine that Marshall will use will seat nearly ten persons.

AUCTION DUTY'S RESERVED

ROLLING STOCK
FOR RAILROADS
IS BADLY NEEDED

Three Hundred Million Dollar Fund May Be Used.

BIG LOANS REQUIRED

Public Convenience To Play Part In Money Distribution.

Washington, April 2.—Urgent need by railroads of cars and locomotives is so great that practically all of the \$300,000,000 revolving fund, set aside by congress for loans to the carriers, can be used for that type of equipment.

Governor Harding of the federal reserve board, chafed by congress with the duty of passing upon the security offered for railroad loans stated today that no applications for loans have been passed upon, but that indications pointed to the bulk of the money being used for additions to car and locomotive equipment.

Appointment of Paul M. Warburg, F. A. Delano and Bradley W. Palmer as members of the railroad advisory loan commission, was announced by Gov. Harding, Secretary of the Treasury, in approving the appointment of the commission said its personnel had agreed to serve in that capacity without salary. The commission will advise Secretary Houston and the federal reserve board concerning security offered by the carriers on loans secured under the new railroad law.

The question of how far the public convenience will be served in improvements contemplated by loans made under this fund is regarded by the board as one of the most importance in deciding these loans. There exists no doubt that the entire fund will be exhausted in the rush of the carriers to augment their present equipment to meet increased industrial demands.

During the guaranty period of six months, under another section of the new act, the secretary of the treasury already has taken up the question of making huge advance of government funds to railroads.

CONGRESS WILL END
ATTEMPT TO ENACT
SEDITION MEASURES

may abandon for this session all attempts to enact anti-sedition legislation. Although the house judiciary committee has before it a number of bills to punish for seditious acts and utterances, there is no present move on the part of the committee to call up the legislation for consideration.

Senator Sterlin, father of the anti-sedition bill that caused a storm of protest and was killed after it had passed the senate, is understood to be preparing another bill which he will present to the senate.

Chairman Volstead, of the house judiciary committee, said today that no movement was on in his committee to take up sedition legislation.

Action by the New York assembly in the case of the socialist members of that body caused a number of members of the house to begin agitation today for a federal anti-sedition law. Other members of the house are counseling caution in connection with such laws, and are urging that the several states be permitted to handle the situation within their own jurisdiction under the state laws.

SHOE PRICES DUE
TO FALL GREATLY
SAY PRICE EXPERTS

Washington, April 2.—Top notch prices for shoes are due to hit the toboggan. Government experts in a survey completed today declared market conditions do not warrant present quotations. They predict a gradual recession that will be pronounced in a few months.

Slackening demand has affected hides, leather and shoes, the experts reveal.

Large accumulations of stocks of hides are reported. In some districts reports show that a check up on the finished product may have been induced by a desire to prevent sharp reduction in retail prices.

Some retailers are holding back in orders for fall trade, expecting a reduction in prices. Many manufacturers, as a result, have an oversupply of manufactured goods. The tendency among consumers to refuse to buy higher priced shoes is absorbed by the experts.

New business affected tanneries in some districts has been small in volume. Labor shortage is given by some factories as the reason for operating only part of the time.

FRENCH CABINET
DISCUSSES RUHR

Paris, April 2.—The French cabinet conferred today upon the German Ruhr situation. Premier Millerand informed his colleagues of the exact character of the latest proposal made by Wilhelm Mayer, the German charge d'affaires for the occupation of the Ruhr district by German government troops.

FORMULATE PLAN FOR ERECTION OF HI SCHOOLS

The campaign favoring the bond issue for \$550,000 for the erection of two new high school buildings in this city will be formulated at a joint meeting of the Xenia Board of Education and the Board of Directors of the Chamber of Commerce next Monday evening.

The meeting will be held directly after the regular meeting of the

Chamber of Commerce Directors. Architect Pretzinger of Dayton, who prepared estimates on the cost of the proposed new buildings, Judge Marcus Shoup, attorney for the Board of Education, and Attorney J. Kenneth Williamson, chairman of the Civic Affairs Committee of the Chamber of Commerce, will also be invited to be present.

A plan of action in the campaign for the bond issue will be built to help successfully engineer the bond issue for the new schools.

The proposed new Central High School building will be built on the site in the Dodds addition recently acquired by the Board of Education while the new colored high school will be erected on lots adjoining the present building.

NEW SUPERINTENDENT OF COUNTY SCHOOLS IS TO BE ELECTED SOON

Election of a superintendent of schools for Greene county, to take the place of Superintendent F. M. Reynolds, who is not a candidate for re-election, is being considered by the county board of education, holding its

regular meeting Friday at the county superintendent's office on East Market street.

Chief among the candidates for election to the office is H. C. Altman, of Iermont county, formerly superintendent of schools at Clifton. Pliny Johnson, superintendent of the Hamilton county schools, is said to be backing Mr. Altman for the place. Other candidates are C. A. Devoe, superintendent of Jamestown, Silvercreek and Caesar creek township schools, B. H. Baines, who has just been re-elected superintendent of Supervision district No. 3, comprising Xenia, Sugar creek and Spring Valley townships, and D. S. Lynn, superintendent of Bath and Beaver

RE-LOCATION OF SEMINARY IS ASSURED

Re-location of Xenia Theological Seminary in the west, by the United Presbyterian church, seems assured. The current issue of The United Presbyterian, published at Pittsburg, the leading church paper of the denomination, contains a report of the Committee of the Central Committee, on the hearing given the re-location commission as to participation in the interchurch World budget.

After considering the argument given by the re-location committee, the Central Committee designated an additional allotment of \$150,000 to Xenia Seminary to make proper re-location possible. The report says: "It has been the undivided opinion of the Central Committee that the budget could not be opened, to do so might lead to endless confusion. However, developments as to the re-location of Xenia Seminary have been coming on apace, and were presented to the Re-location Committee. These are now so far advanced as to have definite proposals as to the cost of property for re-location. Moreover, it has now cleared up, we are assured, that the managers of Xenia Seminary have it in their power to move the seminary. It is further evident that practically all parties concerned are of the opinion that Xenia's most servicable continuance will be in the great developing Middle West. Re-location in this large area of our church is thus assured, and the probable site is in view."

"In view of further facts disclosed as to the re-location of Xenia Seminary, and to make proper re-location possible, and further, in pursuit of the surveys presented by the seminary, the Central Committee designates an additional allotment of \$150,000 for Xenia Seminary from the New World Movement budget, all boards and institutions participating in the budget to bear their share in proportion to said participation."

RAIL PARLEY ENDS WITH NO DECISION IN WAGE DISPUTE

Companies Decline To Consider Demands Further.

WANT VOICE OF PUBLIC

Demands Will Reach Close To Billion Dollars.

Washington, April 2.—Settlement of the railroad wage dispute today awaits the action of President Wilson.

With the representatives of the railroad executives refusing to continue the bi-partisan wage conference, the entire question is turned over to the railroad labor board which is to be created under the Cummins-Esch bill.

Washington, April 2.—Wage negotiations between the conference committee representing the railroads and the unions were broken off last night when the railroad representatives declined to continue consideration of demands which have been estimated to total \$1,000,000,000 unless the public was given a voice in the proceedings.

Under the provisions of the transportation act, the wage controversy now will be referred to the railroad labor board, which is yet to be appointed by President Wilson. The law provides for three representatives of the public on this board.

Disagree As to Meeting

E. T. Whiter, chairman of the railway executive conference committee, announced the decision in a statement which said the two sides were in disagreement as to the provisions of the transportation act. The union representatives were said to hold that the law contemplated an agreement between the railroads and the employees prior to any opportunity for participation by the representatives of the public.

The railroad committee held that such an agreement might be reached, but that they did not believe that "Congress ever contemplated that a controversy involving so great an addition to transportation costs and in which the public is therefore so vitally interested, should be disposed of by direct negotiations."

CONFIDENCE MEASURE TENDERED NITTI BY ITALIAN PARLIAMENT

Rome, April 1.—(Delayed)—A resolution expressing confidence in the Italian government, headed by Premier Nitti was adopted by the senate today by a vote of 107 to 11. Before the vote was taken the premier made a speech declaring that Italy is anxious to enter into negotiations with Jugoslavia at once for a settlement of the Adriatic dispute.

"Russia must be rehabilitated and we must place Germany in a position to produce in order to maintain the equilibrium of Europe," said the premier. "If the ex-kaiser was responsible for the war the German people have already paid their share for the crime. The Italian policy will be to appeal to all European forces to help. There can be no complete restoration of Europe without combined effort."

Premier Nitti said Italy did not want violence in Turkey but desires troops there for the protection of the Dardanelles and the Bosphorus and for traders who are exploiting the riches of Asia Minor.

SUFFRAGE DEFEATED IN DELAWARE; MAY COME UP AGAIN

Dover, Del., April 2.—The ratification resolution to make Delaware the thirty-sixth state necessary to write the woman suffrage amendment into the constitution of the U. S. went down to defeat in the house of representatives late yesterday.

The vote was 22 to 9, but before the result was announced three members changed from aye to nay to place themselves in a parliamentary position to move for reconsideration and one member who was not down as voting asked to be recorded in the negative.

This made the official vote 26 ayes to 6 nays. Eighteen affirmative votes were necessary to pass the resolution. After the vote the house adjourned until Monday.

Failure Believed Sure

In a parliamentary sense, according to the rules of the legislature, the suffrage question is not dead for the special session, but legislative leaders generally conceded that the hope for affirmative action in both houses is a forlorn one.

An identical resolution is still in the senate, where suffragists claim a majority of one. After the defeat of the house resolution Representative Lloyd, Republican, and an anti-moved to reconsider and it was voted down.

Suffragists tonight claim that the anti-moved was a tactical mistake in not moving that the motion be laid on the table. According to Delaware's parliamentary rules this would have made reconsideration more difficult to accomplish the suffragists said.

SENSATIONAL TESTIMONY PREDICTED IN NAVY PROBE

Admiral Sims Completes Case Against Department; Daniels Will Present His Side With Testimony of High Officials.

Washington, April 2.—With the completion of Admiral William S. Sims' case against the navy department, which has been going on for weeks before the sub-committee of the senate committee on naval affairs, the investigation today started in on its last phase, namely the presentation of Secretary Daniels' case.

Among the witnesses to be heard are Rear Admiral Rodman, Rear Admiral Niblack, Rear Admiral Straus, and other high officials of the navy, and friends of the secretary predict sensational developments before the testimony is all in.

The complete list of charges made by the admiral against the navy department may be summarized as follows:

1.—The navy was not ready for service when the United States entered the war in spite of the fact that the war had been going on for nearly three years and our entry imminent from February 2, 1917.

2.—The success of enemy submarines made the first few months after our entry extremely critical ones for the allies.

3.—This situation was made clear to the navy department.

4.—For three months after our entry into the war the department supplied Sims with no plans or policy.

5.—Knowing of the critical situation the navy department delayed assistance.

6.—The department failed to appreciate the military value of time.

7.—Fundamental principles were violated by the department which tried to formulate war plans without sufficient knowledge of the situation.

8.—Sims was not supported by the department during the most critical period of the war through the sending of arms and adequate forces.

9.—The department dispersed forces instead of concentrating them in the critical area.

10.—The department attempted to direct details from Washington when the war was 3,000 miles away and conditions changing daily.

11.—The department did not clearly define the responsibility or delegate authority to Sims, thus violating both a business and military principle.

12.—By controlling operations of certain forces within the war area the department violated the fundamental military principle of unity of command.

13.—The department failed to keep Sims informed as to its plans and often reached decisions through information gained elsewhere.

14.—The delays of the navy department prolonged the world war for four months, caused the loss of 2,500,000 tons of shipping, 500,000 lives and the needless expenditure of billions of dollars.

SUFFRAGE NOT HOPELESS SAYS WOMAN LEADER

Still Chance Of Passage In Delaware Asserted.

Washington, April 2.—The suffrage fight in Delaware is not lost yet.

That was the message Miss Alice Paul, of the national woman's party brought today when she returned from Dover where the lower house of the Delaware state legislature yesterday defeated ratification of the suffrage amendment.

A motion for reconstruction of the vote, by which ratification was defeated will be introduced early next week, Miss Paul stated.

"The sentiment for ratification throughout the state is steadily increasing and the legislature, we are confident, must sooner or later follow the will of the people of the state," she added.

North Carolina, Vermont and Louisiana also held hopes for the suffragists. The Vermont situation is rather uncertain, however, and there is no definite assurance that the governor of that state will call a special session of the legislature to act upon the suffrage amendment.

Governor Bickett, of North Carolina, has promised a special session of the legislature there in June or July and suffrage leaders here feel that with President Wilson's support they can secure ratification in North Carolina. It is also felt that the president's influence could secure ratification by Louisiana.

One of the suffrage groups here has been anxious for the formation of a woman's party, but such leaders as Miss Alice Paul have counseled against such steps until ratification of the amendment is completed.

ADDITIONAL LOANS BY U. S. EUROPEAN COUNTRIES OPPOSED

Chicago, April 2.—Further loans by the United States to European nations were opposed by Frank A. Vanderlip, former president of the National City Bank of New York in a statement made public today.

"At least another year will have to pass before a number of the nations of Europe obtain political stability," said Mr. Vanderlip. "It will be time enough then for American banking interests to consider loans to Europe and even then it will be premature for official negotiations."

Mr. Vanderlip stopped in Chicago en route to Seattle where he will meet a party of American business men who are going on a trip to Japan.

BUREAU ADOPTS A NEW TEST FOR ACCURATE WATCHES

Washington, April 2.—The bureau of standards today initiated a new test to serve as an additional standard for issuing certificates for watches. Succeeding trials will be begun each week. In undertaking this work the bureau announced that its purpose was to establish a test which would ratify a certificate to a watch of the better grades now on the market but which will not pass the class A test, and to give this quality of watch the merited stamp of approval which formerly has been lacking. The test lasts 19 days, during which a watch is tested in five positions and three temperatures.

FORMER RESIDENT OF JAMESTOWN DIES

James January, aged 71, former resident of Jamestown, died Thursday morning at his home in Washington, D. C., of paralysis, the result of grip.

Mr. January was born and reared on a farm east of Jamestown, and lived most of his life in Jamestown. He moved to Washington in 1917. Surviving him are his widow, one son, John, of Kansas City, and a daughter, Miss Mae, who is a teacher in the public schools of Cleveland. The body will be taken to Sabina for burial, arriving Saturday morning, and funeral services will be held at Grassy Run Friends church.

CHANCES OF REBELLION IN IRELAND EASTER SCOUTED BY CHIEFS

Dublin, April 2.—Easter rebellion in Ireland are as unlikely as communication with Mars although the entire country is in a state of nervous anticipation best described as "jumpy."

British troops have been shifted everywhere up and down the country and it is evident that the military authorities and preparing to cope with any situation that might arise. In view of these preparations it is thought extremely unlikely that leaders of any contemplated uprising would strike at this time.

Dublin, however, is living upon its nerves and many timid housewives are laying up reserve stocks of food.

GOLD SHIPMENTS TO BE EXPECTED

Washington, April 2.—Gold shipments in increasing volume from England are to be expected, according to advices received at the treasury today. Secretary of the Treasury Houston stated he had no cablegrams, indicating the size of future shipments. The indications are, however, they will be heavy.

Secretary Houston said he had no word indicating that English gold now being sent over is to be applied to the Anglo-French loan.

FIND CORPSE FROZEN IN ICE

Marquette, Mich., April 2.—Frozen in an iceberg which had drifted ashore the body of William J. Reilly, assistant engineer of the steamer Ohio Owen, which sank in a Lake Superior storm last November, was found by coast guards near Crisp Point, Mich., today. A life preserver was around the body, which is the only one of the ill-fated crew which has been recovered.

TRY TO SWING ILLINOIS DELEGATES TO HOOVER

Chicago, April 2.—Efforts will be made to swing the 58 Illinois delegates to Herbert Hoover if Governor Lowden fails to land the Republican presidential nomination, according to a report current among Republican politicians here today. It is declared by observers closely in touch with G. O. P. moves, that there is no chance that the Lowden delegates can be swung to Wood, owing to a bitter personal feeling said to have arisen between Wood and Lowden because of the fight Wood is making in Lowden's home state.

FIGHT IS FATAL

Thompsonville, Conn., April 2.—Three men were stabbed one possibly fatally, in a street fight between seven Italians early today. The trouble arose over the men throwing popcorn at each other in a moving picture theater.

ALLIES ARE SILENT ON U.S. PROGRAM WITH GERMANY

Policy Of "Watchful Waiting" Toward America.

REFUSE TO COMMENT

Plan For Separate Peace May Be Serious Matter.

London, April 2.—The allies have adopted a policy of "watchful waiting" towards the movement in the American congress to declare peace with Germany by proclamation instead of ratifying the treaty of Versailles.

Prominent allied statesmen were asked for opinions as to possible results in European affairs if the United States should enter into a separate peace with Germany, but they were reluctant to discuss it. They made it plain that comment upon American affairs at this time might be construed as "interference." This is an accusation that all are anxious to avoid. Premier Lloyd George, before his departure for Wales on a vacation over Easter tide, was asked for an expression of opinion but he was cautious on this delicate subject that he would not even explain why he refused to give the interview.

Former Premier H. H. Asquith, who was approached just before he departed to spend the Easter parliamentary recess out of town, was equally uncommunicative.

"I do not care to be quoted on that matter," said Mr. Asquith.

An indication of the viewpoint of the allied statesmen was contained in a brief statement from Premier Lloyd George's secretary, who said: "A separate peace between the United States and Germany undoubtedly would be a very serious matter which would be gravely considered."

Sir Auckland Geddes, the new British ambassador to the United States, was unable to give an opinion because of his delicate diplomatic position.

A. Bonar Law, member of the British peace delegation, was absolutely reticent.

The course of the peace debate in the United States senate has been followed closely in official circles, and this interest has been intensified by the resolution introduced in the American house of representatives Wednesday for peace by proclamation.

INVESTIGATION OF CO-OPERATION OF PACKERS UP

Activity of Department of Justice In Campaigns Aired.

Washington, April 2.—Investigation of co-operation between the department of justice and the beef packers in various campaigns conducted by the attorney general, was taken up today by the house agriculture committee, before which Attorney General Palmer appeared. Speaking of the testimony of L. D. H. Weld, statistician for Swift and Company, who said the firm he represented was "co-operating with the department of justice" in the furtherance of the "cheap cut" campaign being conducted by the department, by Chairman Haugen, Republican of Iowa, said:

"We want to find out just what co-operation means. We want to find out whether the packers are financing the government's campaign, as has been charged. Mr. Weld stated that, if the campaign to get the people to purchase cheap cuts is successful it will result in increased meat prices. The committee wishes to know why the department is doing something to increase meat prices."

The department of justice and Attorney General Palmer in particular have not explained to this committee why the packers who were believed to be guilty by Mr. Palmer according to his testimony before the senate committee, were not prosecuted.

The hearing may run for several days if it develops into a general examination of the attorney general on the conduct of his department.

WILSON IGNORES GEORGIA MATTER

Washington, April 2.—President Wilson has entirely ignored the incident in Georgia, where his name was filed in the primaries and then withdrawn, it was stated at the White House today. He has made no comment on the matter.

White House officials believe that many of those who signed the petition placing the president's name on the primary list in Georgia, did so in good faith but withdrew their names when they learned that it was an effort to force the hand of the president on a third term.

RAIL MEN STRIKE ON REMOVAL OF CONDUCTOR

Chicago, April 2.—Because of officials of the Chicago, Milwaukee and St. Paul railroad removed John Granau as a yard conductor here, 700 switchmen employed by the road went on strike, and its service was crippled today. It was reported that a strike vote is being taken by switchmen employed on the Rock Island lines, but this was denied by a union official.

CITY MARSHAL, 80, KILLED BY HORSE

Effingham, Kan., April 2.—Glenn Rousey, eighty, believed to have been one of the oldest city marshals in the state, was killed here a few days ago when he attempted to stop a runaway team of horses.

Losing his grip on the bridle rein of the "high" horse, Rousey fell to the ground and the loaded wagon passed over his body, crushing his chest and fracturing his skull.

OPPOSE JAP WITHDRAWAL

San Francisco, Cal., April 2.—Opposition to the withdrawal of Japanese troops from Siberia on the ground that it would endanger the lives of Japanese has been made by the Japanese general staff. The information is contained in a dispatch from Tokyo, received here by a Japanese newspaper.

OHIO CITIES SHOULD LICENSE LANDLORDS DECLARES GOVERNOR

Columbus, O., April 2.—Opposing a special legislative session, Governor Cox favors adoption by Ohio cities of a uniform ordinance designed to curb rent profiteers by licensing landlords.

This became known during the conference here between the governor, Attorney General Price and city solicitors representing all sections of the state. The conference was called by the governor for the purpose of exchanging views as to the most effective method of combating the evil of extortionate rentals.

In accordance with the governor's suggestion, the following committee was chosen to draft a proposed ordinance: City Attorney W. S. McConaughy, Dayton, chairman; Attorney General Price, law director; James S. Martin, Toledo; John D. Marshall, Cleveland law department; City Solicitor J. H. Leigninger, Youngstown.

The committee, which is to meet at the attorney general's office next Thursday is expected to draft up a proposed ordinance requiring all landlords to register with a municipal licensing board made up, probably, of three city officials, the board possessing power to revoke licenses and to investigate complaints filed with it alleging excessive rents. The landlords will be required to agree to charge only a fair rent and to abide by the board's rulings.

The purpose in drafting a uniform ordinance is to hold to a minimum test suits attacking the constitutionality of the proposed ordinance.

EXPECT TRIAL VERDICT AGAINST EX-PREMIER BY MIDDLE OF MAY

Paris, April 2.—The curtailment of evidence in the treason trial of former Premier Joseph Caillaux probably will enable a verdict to be reached the middle of next month. Instead of July, as originally predicted, it was stated today by Deputy Moutet, one of the lawyers for the defense.

M. Caillaux himself believes there is a chance of acquittal but most of his friends expect that he will be found guilty and will be given a mild sentence of punishment. M. Caillaux's lawyers believe that the verdict will carry reservations that will enable the defendant to rehabilitate himself.

HEALTH INSURANCE BILL SUBJECT OF TALK OF NEWSPAPERMAN

The bill providing for state health insurance, which is now pending before the Ohio legislature, was the subject of an interesting talk given before the Greene County Medical Association Thursday by George V. Sheridan, publisher of the Springfield Sun, and formerly editor of the Ohio Medical Journal.

The state health insurance bill has provisions similar to the workmen's compensation law. By it, every employee of a concern would be provided with health insurance. In case of illness he would be given medical attention by a physician provided by the firm, and would receive compensation from the state out of a fund into which his employer paid a certain sum.

After Mr. Sheridan's address, he had luncheon with the doctors at the DeLis Club.

YOUNG GIRL ALLEGES FATHER CRUEL TO HER

New York, April 2.—Seventeen-year-old Minnie Gallander was to appear in a Brooklyn police court today against her father, John Gallander, a clay modeller, as a result of physical torture to which the girl alleged she was submitted to in her home. Investigators declared the girl had been burned with a red hot iron, and cracked with needles, stabbed with an ice pick and cut with knives. Her body is covered with scars and burns.

The father denied having been cruel to his daughter.

PLANS AERIAL TRIP OVER WORLD

Paris, April 2.—Captain Marshall, of the French aviation service, plans to begin the first aerial trip around the world next November. The itinerary calls for a flight from Paris to the Dakar, thence to Pernambuco, the United States, Japan, China, the East Indies and return to Paris. The machine that Marshall will use will seat nearly ten persons.

ROLLING STOCK FOR RAILROADS IS BADLY NEEDED

Three Hundred Million Dollar Fund May Be Used.

BIG LOANS REQUIRED

Public Convenience To Play Part In Money Distribution.

Washington, April 2.—Urgent need by railroads of cars and locomotives is so great that practically all of the \$300,000,000 revolving fund, set aside by congress for loans to the carriers, can be used for that type of equipment.

Governor Harding of the federal reserve board, charged by congress with the duty of passing upon the security offered for railroad loans stated today that no applications for loans have been passed upon, but that indications pointed to the bulk of the money being used for additions to car and locomotive equipment.

Appointment of Paul M. Warburg, F. A. Delano and Bradley W. Palmer as members of the railroad advisory loan commission, was announced by Gov. Harding, Secretary of the Treasury, in approving the appointment of the commission said its personnel had agreed to serve in that capacity without salary. The commission will advise Secretary Houston and the federal reserve board concerning security offered by the carriers on loans secured under the new railroad law.

The question of how far the public convenience will be served in improvements contemplated by loans made under this fund is regarded by the board as one of the most importance in deciding these loans. There exists no doubt that the entire fund will be exhausted in the rush of the carriers to augment their present equipment to meet increased industrial demands.

During the guaranty period of six months, under another section of the new act, the secretary of the treasury already has taken up the question of making huge advance of government funds to railroads.

CONGRESS WILL END ATTEMPT TO ENACT SEDITION MEASURES

may abandon for this session all attempts to enact anti-sedition legislation. Although the house judiciary committee has before it a number of bills to punish for seditious acts and utterances, there is no present move on the part of the committee to call up the legislation for consideration.

Senator Sterlin, father of the anti-sedition bill that caused a storm of protest and was killed after it had passed the senate, is understood to be preparing another bill which he will present to the senate.

Chairman Volstead, of the house judiciary committee, said today that no movement was not on in his committee to take up sedition legislation.

Action by the New York assembly in the case of the socialist members of that body caused a number of members of the house to begin agitation today for a federal anti-sedition law. Other members of the house are counseling caution in connection with such laws, and are urging that the several states be permitted to handle the situation within their own jurisdiction under the state laws.

SHOE PRICES DUE TO FALL GREATLY SAY PRICE EXPERTS

Washington, April 2.—Top notch prices for shoes are due to hit the toboggan. Government experts in a survey completed today declared market conditions do not warrant present quotations. They predict a gradual recession that will be pronounced in a few months.

Slackening demand has affected hides, leather and shoes, the experts reveal.

Large accumulations of stocks of hides are reported. In some districts reports show that a check up on the finished product may have been influenced by a desire to prevent sharp reduction in retail prices in order for full trade, expecting a reduction in prices. Many manufacturers, as a result, have an oversupply of manufactured goods. The tendency among consumers to refuse to buy higher priced shoes is absorbed by the experts.

New business after tanneries in some districts has been small in volume. Labor shortage is given by many factories as the reason for operating only part of the time.

FRENCH CABINET DISCUSSES RUHR

Paris, April 2.—The French cabinet conferred today upon the German Ruhr situation. Premier Millerand informed his colleagues of the exact character of the latest proposal made by Wilhelm Mayer, the German charge d'affaires for the occupation of the Ruhr district by German government troops.

HOOVER OUT AS A REPUBLICAN AND PRESIDENTIAL CANDIDATE.

Herbert Hoover on Tuesday telegraphed to the Hoover Republican Club of California that he would accept the Republican nomination for President "if it is felt that the issues necessitate it and it is demanded of me." The message follows:

"New York, March 30, 1920.

"To Warren Gregory, San Francisco, California:

"I had not wished to enter, nor could I hitherto see any real public service by entering, into partisan political discussion, more especially pending the clarification of the diverging views of the different groups in the parties on the great new issues. The recent developments over the treaty, stagnation in adjustment of our great economic problems, and particularly to many urgent representations that I have received as to the situation in my own State, convince me that it is my duty to confirm the action that my Republican friends there have already taken without consulting me.

"I understand that there is a great wish among the Republicans of California to have opportunity to express themselves in favor of the League of Nations with proper reservations safeguarding American tradition and interests, as opposed to the extreme view advocated against any league at all. I differ just as strongly with this view as I differ with the extreme position taken by the President on participation in European affairs. This issue is whether, with reservations protecting our position, we should join the moral forces of the world to reduce the dangers again growing around us or whether we will, by pretense of an insularity that we do not possess, sit by in the face of growing armies, navies, national antagonisms, reaction or, in reverse, the spread of bolshevism, through much of the world. That would be the defeat of the hopes for which our sons were sacrificed in the war.

"No one should be able to dictate the policies of great parties, yet every man and woman has the right to decide what issues and measures he will support. If the Republican party, with the independent element of which I am naturally affiliated, adopts a forward-looking, liberal, constructive platform on the treaty and on our economic issues, and if the party proposes measures for sound business administration of the country, and is neither reactionary nor radical in its approach to our great domestic questions and is backed by men who undoubtedly assure the consummation of these policies and measures, I will give it my entire support. While I do not and will not myself seek the nomination, if it is felt that the issues necessitate it and it is demanded of me I cannot refuse service.

"HERBERT HOOVER."

BERGDOLL BEGINS FIVE YEAR SENTENCE.

Grover Cleveland Bergdoll, convicted by court martial a deserter from the army in time of war, finger-printed and subjected to the head-shaving process with which Uncle Sam brands certain of his sons, began on Tuesday to serve a sentence of five years at hard labor in old Castle William, on Governors Island, New York.

Having been pronounced guilty of wartime desertion, Bergdoll not only forfeits all pay and allowances and is dishonorably discharged from the army, but he loses all rights of citizenship and can never vote nor hold public office, unless his citizenship status should be restored at some future time by presidential pardon. Had he been found guilty of desertion of the United States forces in time of peace the maximum sentence would have been one year and a half. With the customary commutation for good behavior, amounting to about one month for each year, the prisoner may hope to regain his freedom late in 1924.

The youth, who for years was a pest to the Philadelphia police by his reckless speeding in his high-powered car, was employed Wednesday "checking up" soiled and laundered clothing in the prison laundry of the Fort Jay disciplinary barracks.

"He does that work very well," said Major Humphreys, executive officer of the disciplinary barracks, to a reporter "and in all probability that is the work he will be kept at while serving his sentence.

Bergdoll, at hearing his sentence, exhibited no emotion. His manner was that of one who had anticipated his fate and had steeled himself to meet it. All attempts by reporters to draw him into conversation failed.

Government agents are on the trail of Grover Bergdoll's brother, who, when apprehended, will have to face like charges.

The conviction of Grover Cleveland Bergdoll with a five-year penalty has strengthened the determination of the War Department to bring to justice all of the more than 100,000 men in the United States who are accused of violating the military law set up under the draft act. The force of the adjutant general's office is at work now classifying the names of all those persons who are classed as deserters or draft evaders in the army records for the purpose of making them public.

That will be done within the next few months, as soon as they can all be sorted out and arranged by cities and states.

HOLLAND'S STAND.
DAME Holland says (I rather like her, admire her nerve and dauntless will): "I won't give up that famous piker whose maiden name was Kaiser Bill. It's no use rearing round and pawing your bluffs and pleas will cut no ice; we need the cordwood he is piling up. Your coal is scarce and high in price. He piles up ricks of beech and maple, he drags huge sawlogs from afar, he whacks up elm, which is scarce wherever hearths and ranges are. In vain your talk. O special police, in vain your protests and your wars; you'd like to have Bill hew your stumps and split your lordly sycamores." Old Bill has laid aside his sabbie to saw up logs, that pots may boil; and in these days of high priced labor he asks no money for his toil. In honest sweat his effort steeps him, said sweat is streaming from his brow; no wonder, then, that Holland keeps him, and says she'd rather lose a cow.

AKRON, OHIO, MAN GAINED 18 POUNDS

'There's Nothing Like Tanlac' Declares Clarence Hall—Suffered Six Years.

"I count myself lucky that I got Tanlac, for since I began taking it I have gotten rid of a case of indigestion that had followed me for six years and have gained eighteen pounds in weight besides," was the statement made a few days ago by Clarence E. Hall, a well known employe of the Goodrich Rubber Company, living at 951 Bowery street, Akron, Ohio.

"For years," said Mr. Hall in explaining his case, "I could not eat any breakfast, and if I ate any supper I could hardly get any sleep. After meals the worst kind of pains would start up in my stomach, and then get into my chest and around my heart, almost cutting off my breath. Sometimes my heart would beat and palpitate at such a fearful rate as to make me think I had heart trouble.

"But stomach trouble is not the only thing Tanlac had relieved me of, for I had rheumatism in my legs that hurt like a bad toothache. I could not stoop over and straighten up without just suffering agony, but since taking Tanlac I never feel a rheumatic pain. I used to get so nauseated that I could hardly retain anything I would eat and I lost weight and strength continually. I was troubled with dizziness so bad that at times my head seemed to be spinning around like a top, and I was so weak and tired all the time that I never felt like doing a lick of work.

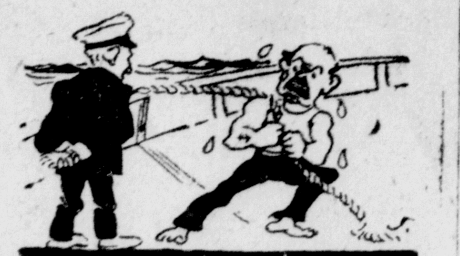

"During the past two years I have been under treatment several times and tried numbers of different medicines, but never found anything to help me until a friend of mine who had taken Tanlac persuaded me to try that medicine, and then I commenced to straighten right up. All signs of stomach trouble and rheumatism soon left me and I enjoyed fine health until about a year later, when I was taken down with typhoid fever. This spell, of course, left me in a weakened condition and with occasional touches of indigestion. So I began taking Tanlac again, knowing so well what it would do, and in a few weeks time I was on my feet in good shape. My appetite was never better than it is now and I am eating three rousing meals a day without the least trouble with my stomach. I sleep like a school boy for ten or eleven hours a night, and that tired feeling has left me entirely, in fact, I have never felt better than I do now, and if I ever need medicine again I shall certainly take Tanlac. There's nothing like it."

"Tanlac is sold in Xenia by Sayre and Hemphill, and in Yellow Springs by A. Finley.

CHATTER

An Irish sailor, after pulling in fifty fathoms of line, muttered to himself: "Sure, it's as long as today and tomorrow! It's a good week's work for any five men. More of it yet? The say's mighty deep, to be sure."

sure." Then he suddenly stopped short; and, looking up to the officer on watch, he explained: "Bad luck to me, sorr, if I don't belave somebody's cut off the other end of this line!"

"Do you know what the hanging committee have done?" said the first artist. "They've absolutely ruined my picture by hanging it next to the worst daub in the exhibition."

"I've the same complaint," said the second artist. "I looked in yesterday and found mine hanging beside a frightful thing."

"How do you do, fellows?" said artist number three, joining them. "I see they've hung your pictures side by side this year."

"What!" cried the careful housewife. "You charge me a shilling a pound for these apples?"

"Yes, ma'am," answered the polite grocer. "that is the very lowest price we can sell them for."

"How is it that I can get them from Todd's for eight pence then?"

"I cannot say, ma'am. Perhaps Mr. Todd has taken a fancy to you. He is a widower and you are beautiful. Unfortunately I—Yes'm, two young'ers? Certainly."

"Why do you wear that costume. It looks like half mourning," asked the husband.

"Well, every evening when you come home from the office you complain of being half dead."

FORD SEDAN STOLEN FROM ITS GARAGE

Forcing an entrance to the garage at the home of James Paullin on North Galloway street sometime Thursday night, thieves made away with a Ford sedan.

The burglary was discovered by Mr. Paullin Friday morning when he noticed that the garage had been opened. The thieves broke the glass in a window, reached through and unlatched the door from the inside. The car was practically new.

Mr. Paullin immediately notified Chief of Police M. E. Graham. The car was covered by insurance against theft.

At the home of Dr. Kent Findley on Galloway street, the garage was forced open, and several jugs of gasoline drawn off the gas tank in Dr. Findley's machine. It is thought that the thieves were the same who stole the Paullin car and that they took this means to secure a future supply of gas.

MOTORAIDS

The coming of the gladsome touring season should make certain things about the car stand out before the thoughts of every owner. Battery, radiator, top curtains, carburetor and tires are the most important. First and most important, however, is the battery.

If you have no hydrometer, buy one. They cost but little. Drop the hydrometer into a solution in the battery cells every week. If the battery doesn't test around 175, look to it. Remember the drain on the battery is as hard in summer as in winter. These facts are from the battery makers.

The instruction book that comes

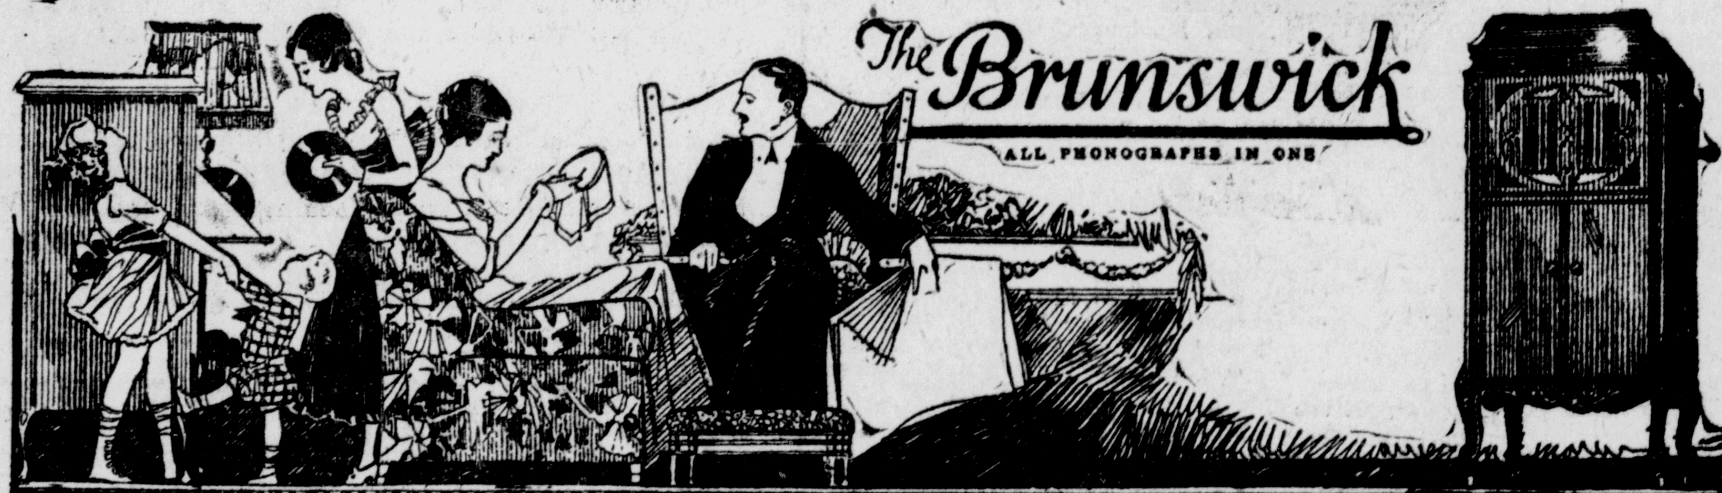

with every car warns the owner to keep the battery plates covered with distilled water. Many times, in starting the motor you will use more current than the generator will put back in the battery in one hour's running.

Rheumatism Back on the Job With Its Old-time Fury

No Let-Up In Its Torture.
If you are afflicted with Rheumatism, why waste time with liniments, lotions and other local applications that never did cure Rheumatism, and never will? Do not try to rub the pain away, for you will never succeed. Try the sensible plan of finding the cause of the pain. Remove the cause, and there can be no pain. You will never be rid of Rheumatism until you cleanse your blood of the germs that cause the disease. S. S. S. has no equal as a blood purifier, scores of sufferers say that it has cleansed their blood of Rheumatism, and removed all trace of the disease from their system. Get a bottle of S. S. S. at your drug store and get on the right treatment to-day. If you want special medical advice, address Medical Director, 102 Swift Laboratory, Atlanta, Ga.

METHOD OF REPRODUCTION

Gives New Beauty to Record Music

"TONES that are reproduced truer, finer, sweeter." "Music that in both spirit and letter is restated with greater beauty." "All records transcribed with greater fidelity."

Golden opinions like these are showered on The Brunswick by its hearers everywhere. And why?

Because with its many other betterments, it has an exclusive new method of Reproduction.

Method of Reproduction

This Method of Reproduction for which the Brunswick Phonograph is famous, includes two scientific features—the Ultona and the Tone Amplifier.

The Ultona

The Ultona—a new day creation—is a tone arm adaptable to playing any make of record.

With but a slight turn of the hand, it presents the correct weight, precise diaphragm and proper needle.

The Tone Amplifier

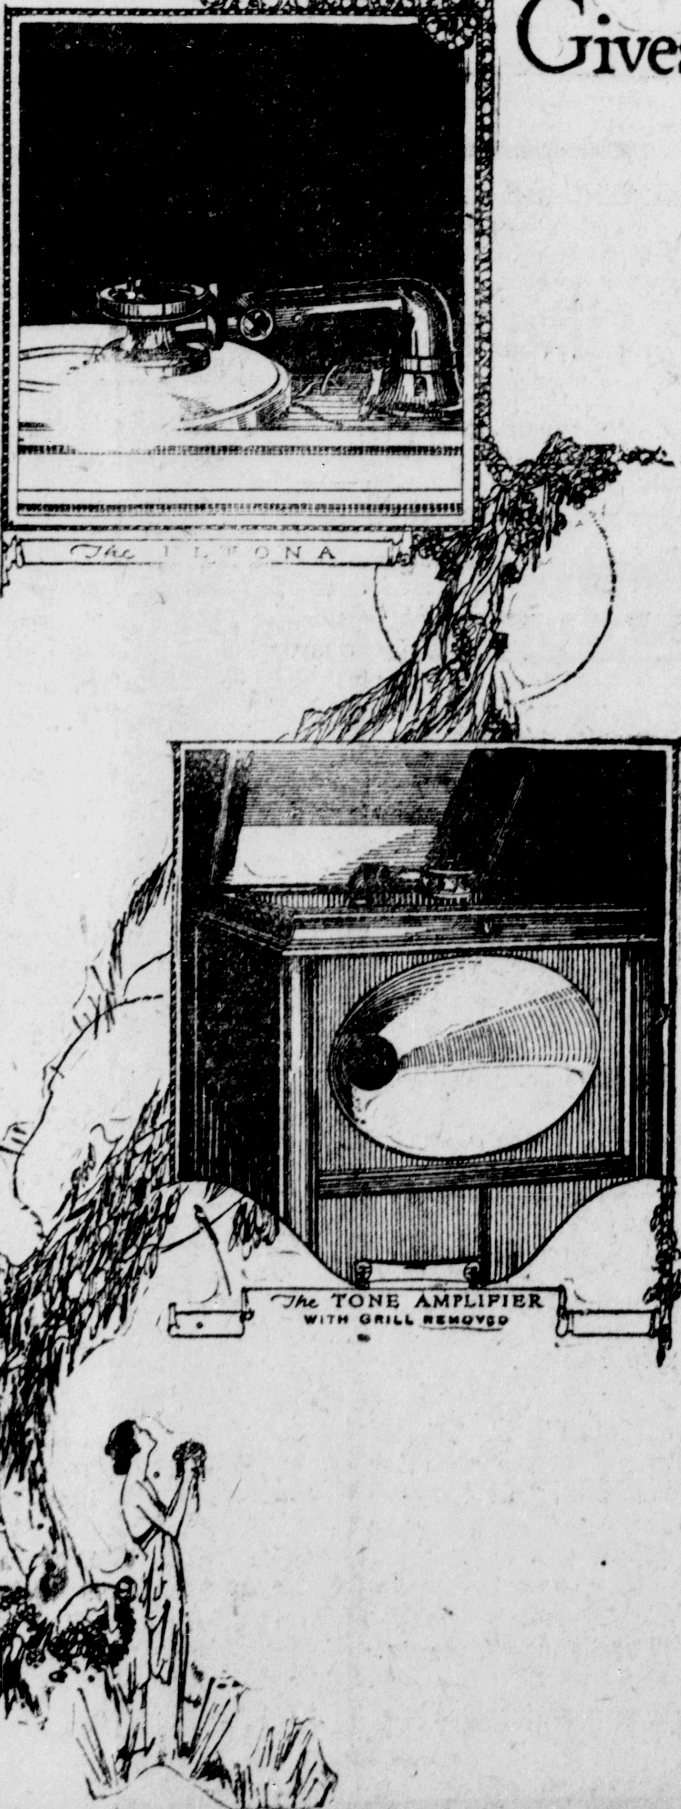

The Tone Amplifier is the vibrant all-wood throat of the Brunswick.

It is oval in shape and made entirely of rare moulded hollywood.

By it, sound waves are projected into full rounded tones. Tones that are richer and more natural.

Brunswick Superiority is Apparent

Among the Churches

TRINITY M. E.
V. F. Brown, pastor. Meet me at Trinity church Sabbath, while we lift our glad voices in praise for the great Easter truth, and what it means to the world. Be in the Sunday school 9:15, and at the public worship, 10:30, when the pastor will preach on "Death Conquered; or, the Living Christ." Special music by the choir. This service will be the culmination of the special evangelistic services, and you will want to be there. Then at four o'clock in the afternoon the choir will render their Easter Musical program, under the direction of Mrs. Wm. H. McGervey. If you can come, by all means be there, for it will well repay you. Strangers welcomed at all services. No evening services.

EBERT WILL NOT SEND HIS TROOPS

London, April 2.—The German government has promised the workers not to send troops into the Ruhr district if the radicals accept the Bielefeld agreement, but it is doubtful if the red chieftains will be able to control the extremists, said a Central News dispatch from Berlin today. Railway workers refuse to man trains carrying troops.

BASEBALL LID PRIED OFF WHEN PLAY STARTS FRIDAY

The baseball lid will be pried off in this section on Friday afternoon when Antioch stacks up against Cedarville on their own diamond.

The two teams are old and bitter rivals and the game will undoubtedly be hard fought and interesting. Antioch has the edge for this season, so far having taken two falls out of the Cedarville aggregation in basketball.

The Antioch team has been practicing hard and will be in tip-top form for the contest. Several members of last year's nine are back in their old positions, while a number of recruits have made promising showings.

C. Vannorsdall has been selected to lead the team this year and he will again cavort around the short field. Edwards is looking after the managing end and will probably be on the receiving end of the finger's shoots. Northup and Little will probably see mound duty, as Chambliss is out on account of illness.

END ATTEMPT TO END STRIKE

London, April 2.—Negotiations for the settlement of the general strike called by the Danish labor unions have been broken off, according to a dispatch from Copenhagen today. The dispatch stated that ammunition is being issued to government troops at Copenhagen.

Further conferences between King Christian and Premier Zahle are being held.

CHICAGO EMPLOYEES AGREE TO RETURN TO WORK FRIDAY

Chicago, April 2.—Agreeing to submit their wage increase demands to arbitration, city hall employees and other municipal workers whose strike has paralyzed the city's business for several days, returned to work today.

More than one thousand of the city's firemen are sticking to their intention to resign from their jobs April 7, however. Threats to fill their places with civilians were made by Fire Marshal O'Connor, and there also were reports that prosecutions charging criminal conspiracy would follow.

Fire fighting forces from the Great Lakes Naval training station and the army post of Fort Sheridan may be sought if the quitting of the firemen places the city in danger of a fire disaster.

SEVERELY HURT WHEN KICKED BY HEIFER

Frank Heider, a farmer living between Yellow Springs and Osborn, is recovering from injuries received a day or two ago, when a heifer kicked him in the head, splitting his left ear entirely across, and lacerating the flesh to the bone. The injury was given surgical attention by Dr. Lawrence Shields.

GERMAN REDS LAY DOWN ARMS

Coblenz, April 2.—The German reds in the Ruhr district are laying down their arms with the exception of the forces in and around Essen, according to information received here today. The reds at Essen are isolated from the main force in Westphalia. They have seized hostages and refuse to give up their arms until they receive further details of the compromise between the German government and the workers.

MARY PICKFORD WRITES TO WORLD

FORMULATE PLAN FOR ERECTION OF HI SCHOOLS

The campaign favoring the bond issue for \$550,000 for the erection of two new high school buildings in this city will be formulated at a joint meeting of the Xenia Board of Education and the Board of Directors of the Chamber of Commerce next Monday evening.

The meeting will be held directly after the regular meeting of the

Chamber of Commerce Directors. Architect Pretzinger of Dayton, who prepared estimates on the cost of the proposed new buildings, Judge Marcus Shoup, attorney for the Board of Education, and Attorney J. Kenneth Williamson, chairman of the Civic Affairs Committee of the Chamber of Commerce, will also be invited to be present.

A plan of action in the campaign for the bond issue will be built to help successfully engineer the bond issue for the new schools.

The proposed new Central High School building will be built on the site in the Dodds addition recently acquired by the Board of Education while the new colored high school will be erected on lots adjoining the present building.

Election of a superintendent of schools for Greene county, to take the place of Superintendent F. M. Reynolds, who is not a candidate for reelection, is being considered by the county board of education, holding its

regular meeting Friday at the county superintendent's office on East Market street.

Chief among the candidates for election to the office is H. C. Altman, of Iremont county, formerly superintendent of schools at Clifton. Pliny Johnson, superintendent of the Hamilton county schools, is said to be backing Mr. Altman for the place. Other candidates are C. A. Devoe, superintendent of Jamestown, Silvercreek and Caesar creek township schools, B. H. Baines, who has just been re-elected superintendent of Supervision district No. 3, comprising Xenia, Sugar creek and Spring Valley townships, and D. S. Lynn, superintendent of Bath and Beaver creek townships.

You Can Borrow Money On Your Home But Not on Rent You Pay

MANY people never think about it in this light. Perhaps you're one who has never realized the possibilities of a home of your own as GOOD COLLATERAL IN TIMES OF STRESS.

Other things no doubt are tugging at your purse strings but there is no advice that beats building yourself a home first.

Get yourself a location while real estate values are normal. Look around. You'll find vacant lots in good places at a reasonable figure. THEN GET ONE.

Counsel with a reputable real estate dealer, a contractor, a banker. ASK QUESTIONS. Ofttimes problems which loom up big to the uninitiated iron out easily and smoothly under expert treatment. You may find it twice as easy to build as you now think.

You can't go wrong. Labor and materials are certain to remain at their present high level for years. You'll not be able "To Build for Less" perhaps in a lifetime.

And always remember this; regardless at what your home costs you can borrow in the same proportion of its value as you could before the war.

A HOME OF YOUR OWN IS MORE THAN A HOME. IT'S YOUR SAVINGS BANK WHEN THINGS TEMPORARILY GO WRONG. BUILD NOW.

BEAUTY CHATS

BEAUTIFULLY KEPT HANDS

Beautifully kept hands require a certain amount of time, but I cannot imagine time being better spent. A woman is judged and classified by the tone of her voice, the choice of her words and the condition of her hands. These are the three main distinctions between the woman of refinement and here careless sister. You may not agree with this theory at first, but I am sure that if you think about it for a while, you will see that you have been unconsciously judging people by just these things.

No woman should neglect her hands. The business woman will find that carefully kept hands are a valuable asset in her business career. The housekeeper will find that her hands will be an index to her age, and also to the amount of work she does. By that I mean that neglected hands will make her look old long before her face will give any indication of age. Therefore, she must protect her hands from the effect of hard housework.

In other chats on this subject, I have told about wearing canvas gloves for ordinary work and rubber gloves to protect the hands when scrubbing or washing. The other day I described one method of making cosmetic gloves to soften hands that showed neglect. I have also said before that a great deal can be done to keep the hands nice looking if they are rubbed with olive oil or plain lard after they have been doing hard work.

For the nails—five minutes a day with an orangewood stick to keep the cuticle pushed back, and with a piece of pumice board to keep them well shaped is all that is necessary. Once a week, however, you should

It takes time, but it's worth it.

take half an hour and either give yourself a manicure or have a professional go over your nails.

Questions and Answers
James J. H.—If you will send me a letter with a self addressed, stamped envelope enclosed, I will mail you the formula for an excellent hair tonic which will keep the hair from falling out and make it come in thicker.

Heart and Home Problems

Dear Mrs. Thompson: My parents are very strict and my father is cruel to me and often strikes me. They do not want me to go anywhere and I cannot have company or callers. I am supposed to sit at home by them all the time. You really don't know how much my young heart craves for company. I feel best when I am at the office where people greet me with a smile.

I cry myself to sleep almost every night. I believe there is no girl who weeps as much as I do. When father sees me cry he strikes me, although I am kind and loving to him and mother.

It breaks my heart sometimes when I see other girls going away and having good times, while I am left as if behind prison bars. I do hope that some day Prince Charming will break the bars to my prison doors and take me to a happy life.

Do you think I ought to leave home? A LONESOME ROSE.
A wrong attitude brings you much of your suffering. To weep, and think that no one weeps so much, is ridiculous. You know little of the suffering in the world to feel that way. Gloom makes you all the more miserable. There is much companionship in books. You could be quite happy with your day at the office and evenings with books. I realize that books cannot take the place of life. You need friends in flesh and blood. Just now, however, you are too young to leave home. Be as happy as possible for a year or two and at the end of that time if conditions have not changed at home, go elsewhere. I am afraid the world would bring you real suffering if you were to break away from home at the age of eighteen.

Dear Mrs. Thompson: I am a girl sixteen years old and married a boy when I was fifteen, but have never

lived with him. I like him, but do not love him. He is eighteen now. I see him once in a while and he begs me to go away and live with him. I really do not love anyone. I am going with a fellow now and he tells me he loves me, but I do not give him any answer.

Should I live with my husband, or should I keep company with the other fellow? MISS TOMMY.
Your affairs certainly are in a tangle. Divorce seems the only way out. If you live with your husband there will probably be children to add to the complication. A separation would be more difficult with children to consider.

It is not right for you, a married girl, to keep company with another man. Get a divorce, or have your marriage annulled, so that you will be free to live the normal life of a young girl. Your first venture has been such a failure that you should not think of marriage again until you are older and very sure of your love.

Dear Mrs. Thompson: I am worried about my six-year-old boy. Every day he comes home from school a much longer way than is necessary because a little boy his own age and size will not let him pass his house. I think in a case like this that my son should fight for his rights. I do not like to whip him. What can I do? BILLY.
A difficulty similar to yours was overcome by dressing the boy in his sister's clothes. After appearing in girl's attire one evening, the young man decided it was better to fight for his rights.

Dear Mrs. Thompson: If one masks as a milkmaid is she supposed to carry a pail?
ONE WHO NEVER MASKED.
She should carry a pail and wear a bonnet.

FIRST CANDIDATE TO FILE PAPERS IS DAVID ARCHER

David Archer of Beaver Creek township, is the first officially announced candidate for a county office to go before the August primaries.

Mr. Archer is a candidate for the Republican nomination of County Commissioner. Although it is not necessary to file nomination papers until June 10, Mr. Archer has his already in the hands of J. K. Williamson, secretary of the Board of Elections.

"I'll be pretty busy after awhile, so I thought I'd just get it fixed up now," said Mr. Archer, in filing the petition.

TURN HAIR DARK WITH SAGE TEA

If Mixed with Sulphur It Darkens so Naturally Nobody can Tell.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the money making at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Weyth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Weyth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft luster and appearance of abundance which is so attractive. This ready-to-use preparation is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

ENORMOUS INCUBATOR INSTALLED BY BABBS

The Babb Hardware Store has installed a large Buckeye incubator, for the purpose of hatching chicks for one-day-old sale.

The incubator is the largest ever operated here, having a capacity of 2440 eggs at a setting, hatching every five days after the first 21 days required. It is heated with a kerosene hot water heater, electric fans being used to draw in fresh air and discharge foul air, keeping the temperature exactly correct.

The demand for day-old chicks hatched at the store for demonstration purposes, has caused the installation of the immense incubator for the purpose of hatching chicks for the trade.

Musterole Works Without the Blister—Easier, Quicker

There's no sense in mixing a mess of mustard, flour and water when you can easily relieve pain, soreness or stiffness with a little clean, white Musterole. Musterole is made of pure oil of mustard and other helpful ingredients, combined in the form of the present white ointment. It takes the place of mustard plasters, and will not blister. Musterole usually gives prompt relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frostbitten feet, colds of the chest (it often prevents pneumonia). 30c and 60c jars; hospital size \$2.50.

REAR ADMIRAL FULLAM BEFORE COMMITTEE

Washington, April 1.—"The United States navy escaped disaster during the war in spite of its unpreparedness only because the German fleet was bottled up," Rear Admiral William F. Fullam declared yesterday before the senate committee investigating the navy. Admiral Fullam commanded the Pacific reserve fleet before the war and is now retired.

"It was not the policy of the navy department to prepare for war or even encourage such preparedness," Fullam said, referring to the navy's program from 1915 to 1917.

INFANTRY WILL SOON BE OBSOLETE

London, April 2.—Infantry and cavalry which have been the "bread and butter" of the armies of the world since the days of Alexander the Great will soon be obsolete, according to Lieutenant W. S. King-Hall.

In a remarkable article in "The Journal of the Royal United Service

Institution" he writes. "In the near future the actual destruction of enemy communications which feed armies of foot and horse soldiers will be necessary because there will be no foot and horse soldiers, except for ceremonial purposes. These men will then regard the Boeaters. The transport tank will eliminate the use of sabres and bayonets. The transporting will have a speed of 30 miles and hour. About 125 of these tanks will convey 10,000 men."

HOOVER OUT AS A REPUBLICAN AND PRESIDENTIAL CANDIDATE.

Herbert Hoover on Tuesday telegraphed to the Hoover Republican Club of California that he would accept the Republican nomination for President "if it is felt that the issues necessitate it and it is demanded of me." The message follows:

"New York, March 30, 1920.

"To Warren Gregory, San Francisco, California:

"I had not wished to enter, nor could I hitherto see any real public service by entering, into partisan political discussion, more especially pending the clarification of the diverging views of the different groups in the parties on the great new issues. The recent developments over the treaty, stagnation in adjustment of our great economic problems, and particularly to many urgent representations that I have received as to the situation in my own State, convince me that it is my duty to confirm the action that my Republican friends there have already taken without consulting me.

"I understand that there is a great wish among the Republicans of California to have opportunity to express themselves in favor of the League of Nations with proper reservations safeguarding American tradition and interests, as opposed to the extreme view advocated against any league at all. I differ just as strongly with this view as I differ with the extreme position taken by the President on participation in European affairs. This issue is whether, with reservations protecting our position, we should join the moral forces of the world to reduce the dangers again growing around us or whether we will, by pretense of an insularity that we do not possess, sit by in the face of growing armies, navies, national antagonisms, reaction or, in reverse, the spread of bolshevism, through much of the world. That would be the defeat of the hopes for which our sons were sacrificed in the war. * * *

"No one should be able to dictate the policies of great parties, yet every man and woman has the right to decide what issues and measures he will support. If the Republican party, with the independent element of which I am naturally affiliated, adopts a forward-looking, liberal, constructive platform on the treaty and on our economic issues, and if the party proposes measures for sound business administration of the country, and is neither reactionary nor radical in its approach to our great domestic questions and is backed by men who undoubtedly assure the consummation of these policies and measures, I will give it my entire support. While I do not and will not myself seek the nomination, if it is felt that the issues necessitate it and it is demanded of me I cannot refuse service.

"HERBERT HOOVER."

BERGDOLL BEGINS FIVE YEAR SENTENCE.

Grover Cleveland Bergdoll, convicted by court martial a deserter from the army in time of war, finger-printed and subjected to the head-shaving process with which Uncle Sam brands certain of his sons, began on Tuesday to serve a sentence of five years at hard labor in old Castle William, on Governors Island, New York.

Having been pronounced guilty of wartime desertion, Bergdoll not only forfeits all pay and allowances and is dishonorably discharged from the army, but he loses all rights of citizenship and can never vote nor hold public office, unless his citizenship status should be restored at some future time by presidential pardon. Had he been found guilty of desertion of the United States forces in time of peace the maximum sentence would have been one year and a half. With the customary commutation for good behavior, amounting to about one month for each year, the prisoner may hope to regain his freedom late in 1924.

The youth, who for years was a pest to the Philadelphia police by his reckless speeding in his high-powered car, was employed Wednesday "checking up" soiled and laundered clothing in the prison laundry of the Fort Jay disciplinary barracks.

"He does that work very well," said Major Humphreys, executive officer of the disciplinary barracks, to a reporter "and in all probability that is the work he will be kept at while serving his sentence.

Bergdoll, at hearing his sentence, exhibited no emotion. His manner was that of one who had anticipated his fate and had steeled himself to meet it. All attempts by reporters to draw him into conversation failed.

Government agents are on the trail of Grover Bergdoll's brother, who, when apprehended, will have to face like charges.

The conviction of Grover Cleveland Bergdoll with a five-year penalty has strengthened the determination of the War Department to bring to justice all of the more than 100,000 men in the United States who are accused of violating the military law set up under the draft act. The force of the adjutant general's office is at work now classifying the names of all those persons who are classed as deserters or draft evaders in the army records for the purpose of making them public.

That will be done within the next few months, as soon as they can all be sorted out and arranged by cities and states.

HOLLAND'S STAND.
DAME Holland says (I rather like her, admire her nerve and dauntless will): "I won't give up that famous piker whose maiden name was Kaiser Bill. It's no use rearing round and putting your bluffs and pleas will cut no ice; we need the cordwood he is piling up. The coal is scarce and high in price. He piles up ricks of beech logs, and the drags huge sawlogs from afar, he whacks up elm, which is scarce wherever hearties and ranges are. In vain your talk. O special police, in vain your protests and your rears; you'd like to have Bill hew your beams and split your lordly sycamores." Old Bill has laid aside his saw to saw up logs, that pots may boil; and in these days of high priced labor he asks no money for his toil. In honest sweat his effort steeps him, said sweat is streaming from his brow; no wonder, then, that Holland keeps him, and says she'd rather lose a cow.

AKRON, OHIO, MAN GAINED 18 POUNDS

'There's Nothing Like Tan-lac' Declares Clarence Hall—Suffered Six Years.

"I count myself lucky that I got Tanlac, for since I began taking it I have gotten rid of a case of indigestion that had followed me for six six years and have gained eighteen pounds in weight besides," was the statement made a few days ago by Clarence E. Hall, a well known employe of the Goodrich Rubber Company, living at 951 Bowers street, Akron, Ohio.

"For years," said Mr. Hall in explaining his case, "I could not eat any breakfast, and if I ate any supper I could hardly get any sleep. After meals the worst kind of pains would start up in my stomach, and then get into my chest and around my heart, almost cutting off my breath. Sometimes my heart would beat and palpitate at such a fearful rate as to make me think I had heart trouble.

"But stomach trouble is not the only thing Tanlac had relieved me of, for I had rheumatism in my legs that hurt like a bad toothache. I could not stoop over and straighten up without just suffering agony, but since taking Tanlac I never feel a rheumatic pain. I used to get so nauseated that I could hardly retain anything I would eat and I lost weight and strength continually. I was troubled with dizziness so bad that at times my head seemed to be spinning around like a top, and I was so weak and tired all the time that I never felt like doing a lick of work.

"During the past two years I have been under treatment several times and tried numbers of different medicines, but never found anything to help me until a friend of mine who had taken Tanlac persuaded me to try that medicine, and then I commenced to straighten right up. All signs of stomach trouble and rheumatism soon left me and I enjoyed fine health until about a year later, when I was taken down with typhoid fever. This spell, of course, left me in a weakened condition and with occasional touches of indigestion. So I began taking Tanlac again, knowing so well what it would do, and in a few weeks time I was on my feet in good shape. My appetite was never better than it is now and I am eating three rousing meals a day without the least trouble with my stomach. I sleep like a school boy for ten or eleven hours a night, and that tired feeling has left me entirely. In fact, I have never felt better than I do now, and if I ever need medicine again I shall certainly take Tanlac. There's nothing like it."

"Tanlac is sold in Xenia by Sayre and Hemphill, and in Yellow Springs by A. Finley.

CHATTER

An Irish sailor, after pulling in fifty fathoms of line, muttered to himself: "Sure, it's as long as today and tomorrow! It's a good week's work for any five men. More of it yet? The say's mighty deep, to be

sure." Then he suddenly stopped short; and, looking up to the officer on watch, he explained: "Bad luck to me, sorr, if I don't belave somebody's cut off the other end of this line!"

"Do you know what the hanging committee have done?" said the first artist. "They've absolutely ruined my picture by hanging it next to the worst dab in the exhibition."

"I've the same complaint," said the second artist. "I looked in yesterday and found mine hanging beside a frightful thing."

"How do you do, fellows?" said artist number three, joining them. "I see they've hung your pictures side by side this year."

"What!" cried the careful housewife. "You charge me a shilling a pound for these apples?"

"Yes, ma'am," answered the polite grocer, "that is the very lowest price we can sell them for."

"How is it that I can get them from Todd's for eight pence then?"

"I cannot say, ma'am. Perhaps Mr. Todd has taken a fancy to you. He is a widower and you are beautiful. Unfortunately I—Yea'm, two young'ers? Certainly."

"Why do you wear that costume. It looks like half mourning," asked the husband.

"Well, every evening when you come home from the office you complain of being half dead."

Rheumatism Back on the Job With Its Old-time Fury

No Let-Up In Its Torture.
If you are afflicted with Rheumatism, why waste time with liniments, lotions and other local applications that never did cure Rheumatism, and never will! Do not try to rub the pain away, for you will never succeed. Try the sensible plan of finding the cause of the pain. Remove the cause, and there can be no pain. You will never be rid of Rheumatism until you cleanse your blood of the germs that cause the disease. S. S. S. has no equal as a blood purifier, scores of sufferers say that it has cleansed their blood of Rheumatism, and removed all trace of the disease from their system. Get a bottle of S. S. METHOD OF REPRODUCTION

Gives New Beauty to Record Music

"TONES that are reproduced truer, finer, sweeter." "Music that in both spirit and letter is restated with greater beauty." "All records transcribed with greater fidelity." Golden opinions like these are showered on The Brunswick by its hearers everywhere. And why? Because with its many other betterments, it has an exclusive new method of Reproduction.

Method of Reproduction

This Method of Reproduction for which the Brunswick Phonograph is famous, includes two scientific features—the Ultona and the Tone Amplifier.

The Ultona

The Ultona—a new day creation—is a tone arm adaptable to playing any make of record.

With but a slight turn of the hand, it presents the correct weight, precise diaphragm and proper needle.

The Tone Amplifier

The Tone Amplifier is the vibrant all-wood throat of the Brunswick.

It is oval in shape and made entirely of rare moulded hollyhock.

By it, sound waves are projected into full rounded tones. Tones that are richer and more natural.

Brunswick Superiority is Apparent

A complete demonstration will prove to you the merits of this super-instrument. Come in today.

ALBERT ABRAHAM IS ONLY A DOG BUT HE'S FAMOUS

"Albert Abraham" is his name and he is one of these friendly little woolly dogs that looks like a ruff. You know the kind. They never look as if they had much sense, but maybe they are foolers. Anyway, Albert Abraham has more brains than the square inch than a lot of human beings. Which is saying a lot but holds good just the same.

"Al," which is his shortened appellation, is the property of C. F. Greenleaf, at the Smoke House, and he knows every customer about the place. But probably better than all the rest, he knows Postmaster E. Rice, and thereby hangs a tale—a dog tale—for the Postmaster is to "Albert" what Mess Sergeant is to a bunch of doughboys.

Every noon, Mr. Rice, drops in at the Smoke House and is at once made the objective of a siege instituted by the little dog. When the Postmaster tells the dog to get a newspaper, "Albert" brings up a newspaper in his mouth. Mr. Rice then gets his meat at the butcher shop. When he returns the canine whines his appreciation and begs him for the dinner. Taking the wrapped meat in his mouth, he carries it to the back room, then returns to get Mr. Rice to come back and untie the package for him.

"Albert Abraham's" long name does not seem to bother his mental tricks that amuse the customers at the place. Everyone around there knows the dog's way of talking and when he looks up as some one whines and then runs toward the door, there are very few but know that "Albert Abraham" wants to take their.

LEAPS TO DEATH FROM POLE'S TOP

Dayton, O., April 2.—Climbing to the top of a 60-foot telephone pole at 6:45 o'clock Thursday evening, Steve Nick, 22, 1219 West Fourth street, Dayton, leaped to his death on the ground below.

Nick, who conducted a west side tailor shop, had been ill for the past month. Minus George, who lives in Oxford, O., paid him a visit Thursday afternoon, and the two visited friends in the neighborhood. On his way home, Nick attempted to hurl himself in front of a train, but was prevented from doing so by George. When out of sight of his friend for a minute, Nick climbed to the top of the pole and in another instant his body struck the ground.

The Cold That Hangs On

This is No. 5 of a series of advertisements, prepared by a competent physician, explaining how certain diseases which attack the air passages—such as Pneumonia, Influenza, Whooping Cough, Measles or even a long continued Cold—often leave these organs in an inflamed, congested state, thus affording a favorable foothold for invading germs. And how Vick's VapoRub may be of value in this condition.

A cold is simply an inflammation of some part of the air passages—throat, larynx or bronchial tubes—just like a sore is an inflammation of the skin. A long continued cold means constant inflammation and this constant inflammation frequently weakens the air passages so that they become an easy point of attack for invading germs of more serious diseases. A "cold that hangs on," therefore, is simply nature's "red flag" indicating that there is "trouble below," and this warning should never be neglected.

Nightly applications of Vick's VapoRub will aid nature to clear up that inflammation. Because Vicks acts locally by stimulation thru the skin to draw out the inflammation, attract the blood away from the congested spots

and relieve the cough. In addition, the medicinal ingredients of Vicks are vaporized by the body heat. These vapors are breathed in all night long, thus bringing the medication to bear directly upon the inflamed areas.

Vicks should be rubbed in over the throat and chest until the skin is red—then spread on thickly and covered with hot flannel cloths. Leave the clothing loose around the neck and the bed clothes arranged in the form of a funnel so the vapors arising may be freely inhaled. If the cough is annoying, swallow a small bit of Vicks the size of a pea.

Samples to new users will be sent free on request to The Vick Chemical Company, 235 Broad Street, Greensboro, N. C.

THIEVES ROB ERVIN GRAIN ELEVATOR; SECURE ONLY DOLLAR

Only about one dollar in money was secured by burglars who forced an entrance into the grain elevator of Ervin Bros. and Davis on South Collier street, sometime Thursday night.

The thieves ransacked a cash drawer, securing only about a dollar. No money is kept in the safe and a notice posted on the safe door gives that information with further instructions as to how to open. The burglars took chances on the truth of the statement, however, and made a thorough though unavailing search

through the contents of the safe. A back door was found open Friday morning but whether this was used both as a means of getting in the building as well as of egress, is not known.

1. This company has a ten-year record of successful operation, and today ranks twelfth among tire manufacturing companies in this country. In 1918 the policy was changed from manufacturing a medium grade product for the jobbing trade, to a high quality tire, which is now distributed through dealers direct. The number of branches was increased from four to fifteen. This transition resulted in a loss and expense of several hundred thousand dollars through the discarding of materials and machinery, liberal adjustments and the reorganization of the entire sales plans. Earnings for 1918 and 1919 were decreased to this extent. Under the new policy, because of better prices, a considerable reduction in the number of tires produced gives the same cash value in volume of business, and permits of a 100% expansion without material increase of investment in fixed property.

The company has an excellent fabric situation, having a supply, contracted for at low prices, sufficient to meet requirements for 1920. Tire prices were recently increased which should increase 1920 earnings substantially.

Earnings. The average net earnings for six years ending November 30, 1919, after Federal Taxes, were in excess of two times the annual dividend requirements of the preferred stock.

Values. Each share of preferred stock is protected by \$182.00 of net tangible assets and \$130.00 of net quick assets. The tangible book value of the common stock is \$20.71 a share. These figures are without consideration for an appraisal made by the American Appraisal Company showing sound values of \$458,000 in excess of book value of fixed property.

Dividends. Regular quarterly dividends have been paid on preferred stock outstanding for six years.

An initial dividend of 75 cents a share was paid on the No Par Value Common Stock, March 1, 1920. Total cash dividends of 82 2-3% and stock dividends of 83 1-3% have been paid on the common stock since 1912.

All legal matters pertaining to this issue have been passed upon by Messrs. Squire, Sanders & Dempsey, Cleveland, for the bankers, and L. M. Kyes, East Palestine, Ohio, for the company.

The books and accounts are regularly audited by Messrs. Ernst and Ernst, Certified Public Accountants.

No fractional shares will be issued, but an adjustment will be made for fractional shares of common stock at the rate of \$30.00 per share.

Price. 5 shares 7% Preferred, 1 share No Par Value Common: \$500 and accrued dividend on preferred from April 1, 1920.

BASEBALL LID PRIED OFF WHEN PLAY STARTS FRIDAY

The baseball lid will be pried off in this section on Friday afternoon when Antioch stacks up against Cedarville on their own diamond.

The two teams are old and bitter rivals and the game will undoubtedly be hard fought and interesting. Antioch has the edge for this season, so far having taken two falls out of the Cedarville aggregation in basketball.

The Antioch team has been practicing hard and will be in tip-top form for the contest. Several members of last year's nine are back in their old positions, while a number of recruits have made promising showings.

C. Vannorsdall has been selected to lead the team this year and he will again cavort around the short field. Edwards is looking after the managing end and will probably be on the receiving end of the finger's shoots. Northup and Little will probably see mound duty, as Chambliss is out on account of illness.

END ATTEMPT TO END STRIKE

London, April 2.—Negotiations for the settlement of the general strike called by the Danish labor unions have been broken off, according to a dispatch from Copenhagen today. The dispatch stated that ammunition is being issued to government troops at Copenhagen.

Further conferences between King Christian and Premier Zahle are being held.

CHICAGO EMPLOYEES AGREE TO RETURN TO WORK FRIDAY

Chicago, April 2.—Agreeing to submit their wage increase demands to arbitration, city hall employees and other municipal workers whose strike has paralyzed the city's business for several days, returned to work today.

More than one thousand of the city's firemen are sticking to their intention to resign from their jobs April 7, however. Threats to fill their places with civilians were made by Fire Marshal O'Connor, and there also were reports that prosecutions charging criminal conspiracy would follow.

Fire fighting forces from the Great Lakes Naval training station and the army post of Fort Sheridan may be sought if the quitting of the firemen places the city in danger of a fire disaster.

They have seized hostages and refuse to give up their arms until they receive further details of the compromise between the German government and the workers.

MARY PICKFORD WRITES TO WORLD

Los Angeles, Cal., April 2.—A honeymoon message to all the world was issued today by Mary Pickford Fairbanks, America's sweetheart, from the country estate of her husband, Douglas Fairbanks, in Beverly Hills.

By Mary Pickford.
(Written especially for the International News Service.)

"I am going to continue my screen work just the same only I shall now work with even greater effort to serve those who have heretofore given me the desire to please them. I am not going to retire. My honeymoon in Europe will be a long desired rest which I believe I have justly earned after the first vacation I have ever had."

"On my return I hope to be able to do better work and with even greater effort will endeavor to retain the same place in the hearts of my many friends, both children and grown-ups, to whom I owe everything and love."

LOVE ONLY SOLUTION TO WORLD'S TROUBLES DECLARES PRIEST

"The only solution to the trials and difficulties which now beset the world, is the great commandment of Love, love of God and love of neighbor," said the Rev. Father Martin Varley, of Winton Place, Cincinnati, who delivered a sermon on the Passion of Jesus Christ at the Holy Thursday service at St. Brigid's church, Thursday night.

Jesus came upon earth to teach the great lesson of Love to the world, declared the speaker. For love of God and of man, he underwent sufferings and persecutions, and at the hour of his bitter passion and death had only words of love, pity and forgiveness for his enemies.

"Unless we love our neighbors, we cannot love God, and unless we love our neighbors, we cannot save our souls," said Father Varley.

Spoke of the state of unrest of the world. Men, he declared, are losing their respect for authority, and for those in authority. They are dissatisfied with their stations in life, and are ready to take extreme measures to bring about conditions they desire. Until there is again mutual love and respect among people, for one another and at the same time love of God, there is little hope of cessation of the strife, he declared.

"God grant," he said, "that Jesus Christ, hanging upon the Cross may obtain from His Father, the grace for men, that they may see and understand."

18 CONVENTIONS SLATED FOR CAPITOL

Washington, April 2.—Washington as a convention center will compete with San Francisco and Chicago this summer. On less than eighteen national and international conventions in which a total of thirty-three countries will be represented, are scheduled for the coming "convention year."

Several of the gatherings will have attendance of close to 10,000 persons. One of these is the Southern Baptist Association, which is expected to draw about 10,000 delegates and visitors in May, while the World's Brotherhood Federation in June will have representatives from thirty-three foreign countries present, including scores of internationally famous men. Lloyd George and General Jan Smuts are expected when the Veterans of Foreign Wars meet here in August.

During the Spring the Sons of the Revolution, National Academy of Sciences, Association of Harvard Clubs, Colonial Dames of America and numerous other famous organizations are scheduled to convene in Washington.

PROHIBITION DRIVES BUSCH TO BANKING

St. Louis, April 2.—Prohibition has driven August A. Busch, Jr., twenty-one-year old heir to millions derived from the famous Busch Brewing company into the "sordid" banking business.

Young Busch held a position in his father's brewery here until the "dry" amendment disrupted the profession of producing "beer with a foam." Several weeks ago he obtained a position with the Gravois bank of St. Louis County, and has been "working steady" since.

J. Harry Brehme, cashier of the bank, declared that young Busch was one of "his best clerks" and was as regular as a "clerk."

Busch declares he is going to "take a shot" at everything in the banking business and from messenger to bookkeeper so that he can learn the business from the ground up and "go at it on his own some day."

MISTAKE TO TELL LIES TO CHILDREN

Columbus, O., April 2.—"It is a mistake to tell lies to children. Even the Santa Claus myth can be told in such a way as not to be told untruthful," declared Rev. Irving Maurer, pastor of the First Congregational church, here, discussing the subject "Telling the Truth."

"Children lie either because their parents have been found out or because their parents are unskillful in questioning them," Rev. Dr. Maurer continued.

"Sex ruth early should be told children, for a child will learn these facts in a distorted, impure, untruthful aspect if you lie to him about them.

"So, too, children should learn the facts about the Bible, about religion, about science, in order not to be compelled in adolescence to find themselves deceived."

GOES TO SCHOOL WITH HER CHILDREN

Pittsburg, Pa., April 2.—Finding that her four children were forging ahead of both her and her husband, Mrs. J. W. Schad went to the Fifth avenue night school. She found time to take up English, French and German, which she now speaks and writes.

Mrs. Schad has one son in high school and three children in the lower grades. Asked what she intended to do if her children should advance further, she declared she would take a college course.

YOUNG WOMAN HOLDS UP TRAFFIC

Kansas City, April 2.—A young woman and a Turkish cigarette held up street car traffic on the Fifth street line for fifteen minutes the other night. It all happened when she sat on the car track and endeavored to light the "rag." Amid the protests of an angry motorman she blandly asked for a match to light a second "pill."

Then came a policeman who removed her to police headquarters. "You tell 'em, I stutter," was her only reply, as she was led away to "sober-up."

FLYING REPTILE FOUND IN KANSAS

Lawrence, Mass., April 2.—Specimens of the largest flying reptile of the Kansas world some five million years ago, were dug up recently in the fossil beds of the state by Hanged T. Martin, curator of the Kansas University.

The bird-reptile has been given the name of pteranodon by scientists. They described as having a wing spread of from eighteen to twenty feet, small body, slender hind feet and stump tail.

FOUR ARE INDICTED IN COURT LEAK CASE

Washington, April 1.—Indictments were handed down today by the federal grand jury against four men, two minor government officials, who have recently resigned and two outsiders, as the result of investigations conducted by the department of justice following revelations by the International News Service indicating that a coterie of Wall street speculators was profiting through a leak of decisions of the United States supreme court. Those indicted were:

1—Ashton F. Emory, private secretary (resigned) to Associate Justice Joseph McKenna, of the United States supreme court.

2—J. Harwood Graves, attorney in special division, department of justice (resigned).

3—B. E. Moses, attorney at law, and Washington business man.

4—E. M. Mayer, formerly major in the United States army, president of the federal supply company, Washington D. C.

Department of justice officials indicated that other indictments may follow.

No More Corn Suffering

"Gets-It" Never Leaves a Corn On Any Foot For Very Long.

The hurting "pep" goes right out of that corn the moment a few drops of "Gets-It" lands thereon. It is through, and "for keeps."

Corns and "Gets-It" Can't Live Together

You'll have no more pain but will notice the corn getting loose and wobbly. In a day or so, you lift it right off without any feeling. That's the end of the corn and of your troubles. Millions have proved "Gets-It" to be the one and only unfailing, common sense corn remover. Why not you?

"Gets-It" costs but a trifle at any drug store and carries a money-back guarantee. Mfd. by E. Lawrence & Co., Chicago.

WOMEN NEED SWAMP-ROOT

Thousands of women have kidney and bladder trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder dis-ease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

Pains in the back, headache, loss of ambition, nervousness are often times symptoms of kidney trouble.

Don't delay starting treatment. Dr. Kilmer's Swamp-Root, a physician's prescription, obtained at any drug store, may be just the remedy needed to overcome such conditions.

Get a medium or large size-bottle immediately from any drug store.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Gazette or Republican.

BEST TONIC MADE DRUGGISTS CLAIM

Dayton Lady Weak and Nervous Asked What She Should Take.

THEY SAID HYPO-COD

With a hundred tonics on the shelf the well informed up-to-date druggist declared without hesitation, "Earle's Hypo-Cod is the best for a general rundown condition. This is because of the remarkable improvement embodied in this superb preparation and because of the well known therapeutic properties of the ingredients. Mrs. Ida Phillips, a well known lady of Dayton declares that her druggist was surely right when he said Earle's Hypo-Cod would build her up. To quote her own words she said:

"I was all worn out. I have worked hard all my life and I really began to believe I was going into a rapid decline. I was all rundown and felt tired and weary all the time. I slept fairly well but all through the night I would dream, dream, dream, until in the morning, I would wake up as tired and weary as when I went to bed. My nerves were almost shattered when I finally decided to suffer no longer and asked my druggist for a tonic. They told me Earle's Hypo-Cod was one of the best tonics they had so I bought a bottle. I've taken almost three now and I feel stronger and better in every way. I am not nervous like I was and so I gladly recommend it to others," declared Mrs. Phillips, whose address is 3124 Home Ave., Dayton, Ohio.

Thousands of weary, worn-out women owe their robust health and vigor to a bottle of Earle's Hypo-Cod. It is especially good for one at this time of year. Secure a bottle tonight at your druggist.

Earle's Hypo-Cod is sold here by Sohn's Drug Store (opposite Court House) and the leading druggists in all nearby towns. Price \$1.25 plus 6c war tax.

BEAUTY CHATS

BEAUTIFULLY KEPT HANDS

Beautifully kept hands require a certain amount of time, but I cannot imagine time being better spent. A woman is judged and classified by the tone of her voice, the color of her hair and the condition of her hands. These are the three main distinctions between the woman of refinement and here careless sister. You may not agree with this theory at first, but I am sure that if you think about it for a while, you will see that you have been unconsciously judging people by just these things.

No woman should neglect her hands. The business woman will find that carefully kept hands are a valuable asset in her business career. The housekeeper will find that her hands will be an index to her age, and also to the amount of work she does. By that I mean that neglected hands will make her look old long before her face will give any indication of age. Therefore, she must protect her hands from the effect of hard housework.

In other chats on this subject, I have told about wearing canvas gloves for ordinary work and rubber gloves to protect the hands when scrubbing or washing. The other day I described one method of making cosmetic gloves to soften hands that showed neglect. I have also said before that a great deal can be done to keep the hands nice looking if they are rubbed with olive oil or plain lard after they have been doing hard work.

For the nails—five minutes a day with an orangewood stick to keep the cuticle pushed back, and with a piece of pumice board to keep them well shaped is all that is necessary. Once a week, however, you should

It takes time, but it's worth it.

take half an hour and either give yourself a manicure or have a professional go over your nails.

Questions and Answers

Heart and Home Problems

Dear Mrs. Thompson: My parents are very strict and my father is cruel to me and often strikes me. They do not want me to go anywhere and I cannot have company or callers. I am supposed to sit at home by them all the time. You really don't know how much my young heart craves for company. I feel best when I am at the office where people greet me with a smile.

I cry myself to sleep almost every night. I believe there is no girl who weeps as much as I do. When father sees me cry he strikes me, although I am kind and loving to him and mother.

It breaks my heart sometimes when I see other girls going away and having good times while I am left as if behind prison bars. I do hope that some day Prince Charming will break the bars to my prison doors and take me to a happy life. Do you think I ought to leave home? A LONESOME ROSE.

A wrong attitude brings you much of your suffering. To weep and think that no one weeps so much, is ridiculous. You know little of the suffering in the world to feel that way. Gloom makes you all the more miserable. There is much companionship in books. You could be quite happy with your day at the office and evenings with books. I realize that books cannot take the place of life. You need friends in flesh and blood. Just now, however, you are too young to leave home. Be as happy as possible for a year or two and at the end of that time if conditions have not changed at home, go elsewhere. I am afraid the world would bring you real suffering if you were to break away from home at the age of eighteen.

Dear Mrs. Thompson: I am a girl sixteen years old and married a boy when I was fifteen, but have never

lived with him. I like him, but do not love him. He is eighteen now. I see him once in a while and he begs me to go away and live with him. I really do not love anyone. I am going with a fellow now and he tells me he loves me, but I do not give him any answer.

Should I live with my husband, or should I keep company with the other fellow? MISS TOMMY.

Your affairs certainly are in a tangle. Divorce seems the only way out. If you live with your husband there will probably be children to add to the complication. A separation would be more difficult with children to consider.

It is not right for you, a married girl, to keep company with another man. Get a divorce, or have your marriage annulled, so that you will be free to live the normal life of a young girl. Your first venture has been such a failure that you should not think of marriage again until you are older and very sure of your love.

Dear Mrs. Thompson: I am worried about my six-year-old boy. Every day he comes home from school a much longer way than is necessary because a little boy his own age and size will not let him pass his house. I think in a case like this that my son should fight for his rights. I do not like to whip him. What can I do? BILLY.

A difficulty similar to yours was overcome by dressing the boy in his sister's clothes. After appearing in girl's attire one evening, the young man decided it was better to fight for his rights.

Dear Mrs. Thompson: If one masks as a milkmaid is she supposed to carry a pail? ONE WHO NEVER MASKED.

She should carry a pail and wear a bonnet.

FIRST CANDIDATE TO FILE PAPERS IS DAVID ARCHER

David Archer of Beaver Creek township, is the first officially announced candidate for a county office to go before the August primaries.

Mr. Archer is a candidate for the Republican nomination of County Commissioner. Although it is not necessary to file nomination papers until June 10, Mr. Archer has his already in the hands of J. K. Williamson, secretary of the Board of Elections.

"I'll be pretty busy after awhile, so I thought I'd just get it fixed up now," said Mr. Archer, in filing the petition.

TURN HAIR DARK WITH SAGE TEA

If Mixed with Sulphur It Darkens so Naturally Nobody can Tell.

The old-time mixture of Sage Tea and Sulphur for darkening gray streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the messy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive. This ready-to-use preparation is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

ENORMOUS INCUBATOR INSTALLED BY BABBS

The Babb Hardware Store has installed a large Buckeye incubator, for the purpose of hatching chicks for one-day-old sale.

The incubator is the largest ever operated here, having a capacity of 2440 eggs at a setting, hatching every five days after the first 21 days required. It is heated with a kerosene hot water heater, electric fans being used to draw in fresh air and discharge foul air, keeping the temperature exactly correct.

The demand for day-old chicks hatched at the store for demonstration purposes, has caused the installation of the immense incubator for the purpose of hatching chicks for the trade.

Musterole Works Without the Blister—Easier, Quicker

There's no sense in mixing a mess of mustard, flour and water when you can easily relieve pain, soreness or stiffness with a little clean, white Musterole. Musterole is made of pure oil of mustard and other helpful ingredients, combined in the form of the present white ointment. It takes the place of mustard plasters, and will not blister. Musterole usually gives prompt relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frostbitten feet, colds of the chest (it often prevents pneumonia), 30c and 60c jars; hospital size \$2.50.

REAR ADMIRAL FULLAM BEFORE COMMITTEE

Washington, April 1.—"The United States navy escaped disaster during the war in spite of its unpreparedness only because the German fleet was bottled up," Rear Admiral William F. Fullam declared today before the senate committee investigating the navy. Admiral Fullam commanded the Pacific reserve fleet before the war and is now retired.

"It was not the policy of the navy department to prepare for war or even encourage such preparedness," Fullam said, referring to the navy's program from 1915 to 1917.

MRS. LLOYD GEORGE LENDS BABIES AID

London, April 2.—Mrs. David Lloyd George, wife of the Prime Minister, has taken up the cause of the unwanted babies.

She has decided, as the result of being approached for aid by many mothers of unwanted babies, that the best policy is to provide for their removal from undesirable surroundings. A fund has been opened for placing them in public institutions and homes.

Stiff Joints Sore Muscles

Limber Up Quickly Under the Soothing, Penetrating Application of Hamlin's Wizard Oil

In cases of rheumatism and lame back it penetrates quickly, drives out soreness, and limbers up stiff, aching joints and muscles.

Wizard Oil is an absolutely reliable, antiseptic application for cuts, burns, bites, and stings. Sprains and bruises heal readily under its soothing, penetrating qualities.

Get it from druggists for 30 cents. If not satisfied return the bottle and get your money back.

Ever constipated or have sick headache? Just try Wizard Liver Whip, pleasant little pink pills, 30 cents. Guaranteed.

INFANTRY WILL SOON BE OBSOLETE

London, April 2.—Infantry and cavalry which have been the "bread and butter" of the armies of the world since the days of Alexander the Great will soon be obsolete, according to Lieutenant W. S. King-Hall.

In a remarkable article in "The Journal of the Royal United Service Institution" he writes. "In the near future the actual destruction of enemy communications which feed armies of foot and horse soldiers will be necessary because there will be no foot and horse soldiers, except for ceremonial purposes. These men will then regard the Beebeaters. The transport tank will eliminate the use of sabres and bayonets. The transporting will have a speed of 30 miles an hour. About 125 of these tanks will convey 10,000 men."

AMERICANIZATION IS KEYNOTE OF ADDRESS TO MISSIONARY SOC.

Mrs. J. O. C. McCracken, wife of the pastor of the Xenia Presbyterian church, read an interesting paper on wor among the American Negroes, at the convention of the Presbyterian Missionary Society, in Dayton, Thursday afternoon.

This work was given particular thought at the afternoon session, in connection with Americanization, and in Mrs. McCracken's paper, the thought was well centered.

Mrs. McCracken divided the life of the Negro into three periods:

First, his life in ante-vellum days, when for the most part he is permitted to live in ignorance and squalor. At that time, she said, he had a very unfair chance, because of race prejudice.

The second period, she set forth, was that of emancipation days, when, though he was freed from actual slavery, he was, nevertheless, thrust upon the world and his new freedom, without preparation. In this connection, Mrs. McCracken spoke of the work that had been done by the missionary boards for the Negro, dwelling particularly upon schools, etc. that have been established in the south.

She designated the third period, as that of the late war, when the Negro prove himself such a splendid citizen and soldier. She then made an earnest plea for him, in the way of education that would place him in a sphere where he has a right to live. She spoke of the development throughout the south, of Negro schools.

A banquet, which brought together senior and junior delegates to the convention, was held Thursday night. The convention closed Friday afternoon. A number of Xenia women are attending the sessions.

USE KILLO WHEN YOU CLEAN HOUSE

Spring house cleaning isn't complete without Killo, the great disinfectant and insect exterminator. Sprinkled in closets, it kills the larval of moths, drives away ants and roaches, purifies the atmosphere and removes all danger of lurking disease germs. When used according to directions, it will free the house of all insect pests, including ants, and will keep away the moths without the odorous camphor smells.

Killo is made by the Duffee Mfg. Company, whose famous Duffee's Cough Syrup and Duffee's Fifty-Fifty Tonic Laxative are used in hundreds of homes. This line of popular remedies is sold by grocers and druggists at low prices, and no household is complete without them.

Would You Gain a Pound A Week for Three Months?

Then begin taking regularly three grains of hyponuclease tablets, which are made from a health-germ of ordinary yeast and combined with hypophosphites and an absorptive phosphorus.

Physicians and chemists assert that this tablet is very largely used for increasing the weight and improving the nervous system because of its aid to digestion, assimilation and absorption. The food elements which go to make blood and solid tissue is retained when this treatment is regularly used for several months. Most apothecary shops supply them in sealed packages.

This Husky Chap Admits It, and
Twice a Year Takes Pepto-
Mangan, Red Blood
Builder

He is tall (almost six feet), weighs 185, plays golf, works his own garden and is stronger than most men. He is the picture of health, looks as vigorous as a football player.

But he is a bit anemic, gets tired too easily, is inclined to constipation, is more nervous than a normal man should be, and is subject to disfiguring pimples.

He told all this himself, and added "Whenever I have the sense or the memory to take two or three bottles of Gude's Pepto-Mangan in the late fall and early spring, I am as right as a rivet. The trouble is, I forget. If I hired a doctor only to remind me to take Pepto-Mangan twice a year, it would be worth hundreds of dollars to me."

Gude's Pepto-Mangan is an absolutely dependable red-blood builder in all conditions of lowered vitality not due to serious disease of the vital organs. It improves the appetite, imparts color to the cheeks, and creates new hope and ambition in those who have become pale, weak, and listless. Physicians recommend Gude's Pepto-Mangan. When you order, be sure the word "Gude's" is on the package. Without "Gude's" it is not Pepto-Mangan. Furnished in both liquid and tablet form. For sale by all druggists.—Adv.

"SMILES"

"What does my little man want to buy today—candy?" asked the kindly shopkeeper, as the little boy entered.

"You bet I do," was the reply, "but I've got to buy soap!"

"I think," said the solemn professor, "that we shall find a way to communicate with Mars." "Don't you bother about that," replied Dustin Stax. "If you want to get a neat little endowment from me, you devise some reliable means of getting central to connect me with my office."

Four-year-old Harold was going away on a visit. His mother had been giving him final instructions in table etiquette and the general importance of being polite.

His six-year-old sister listened with increasing disdain. Finally, unable to bear it any longer, she said: "Now, mother, if Harold's going up there to act a damn sissy, I'm not going."

When he reached the home he found Mr. Koontz sitting in bed and eating a bowl of bread and milk. The war veteran had been reported to the navy union.

In 2000 Counties This Month

*The Forces of the Church
of Christ Will Gather To
Face the Facts.*

IN 2000 counties in the United States the pastors and laymen of 30 great denominations will meet in conference this month.

It is the kind of conference that generals hold before a critical engagement; that business men hold before entering a new market. A conference of judgment, not emotion; a clear-eyed facing of the facts.

A Survey that Business Men Must Admire

For more than a year hundreds of workers have been quietly engaged in making a scientific survey of the mission fields, and of America county by county.

The facts developed are startling. No such picture of America's religious situation has ever before been drawn.

On the basis of these surveys thirty Protestant denominations are uniting in a

Nation Wide Cooperative Campaign

Each of the thirty denominations has its own "Forward Movement" organized and officered. The Interchurch World Movement is the clearing house for all of these.

It is the agency which the churches have created to avoid duplication, to foster cooperation and make sure that every man and dollar render the utmost service possible.

The month of April will be devoted to making the facts of the survey known to America; in the week of April 25th-May 2nd, will come a united simultaneous financial campaign.

Whether You Are Inside the Church or Out

To every man and every woman who loves his country, these 2000 county conferences are vitally important.

For the facts developed by this great survey show vividly what forces are at work in America—and what kind of a country this country is to be.

See that the pastor of your church appoints delegates. Any pastor can tell you the conference place and date. Or write direct to the

ALBERT ABRAHAM IS ONLY A DOG BUT HE'S FAMOUS

"Albert Abraham" is his name and he is one of these friendly little woolly dogs that looks like a snuff.

You know the kind. They never look as if they had much sense, but maybe they are foolers. Anyway, Albert Abraham has more brains to the square inch than a lot of human beings. Which is saying a lot but holds good just the same.

"Al," which is his shortened appellation, is the property of C. F. Greenleaf, at the Smoke House, and he knows every customer about the place. But probably better than all the rest, he knows Postmaster E. Rice, and thereby hangs a tale—a dog tale—for the Postmaster is to "Albert" what Mess Sergeant is to a bunch of doughboys.

Every noon, Mr. Rice, drops in at the Smoke House and is at once made the objective of a siege instituted by the little dog. When the Postmaster tells the dog to get a newspaper, "Albert" brings up a newspaper in his mouth. Mr. Rice then gets his meat at the butcher shop. When he returns the canine whines his appreciation and begs him for the diner. Taking the wrapped meat in his mouth he carries it to the back room, then returns to get Mr. Rice to come back and untie the package for him.

"Albert Abraham's" long name does not seem to bother his mental tricks that amuse the customers at the place. Everyone around there knows the dog's way of talking and when he looks up as some one, whines and then runs toward the door, there are very few but know that "Albert Abraham" wants to take their.

EAST END NEWS

Sabbath afternoon at Zion Baptist church, at 2:30 an Easter Musical with the children of the Sunday school, will be rendered. Miss Beulah Underwood, the musical director, is sparing no pains to make this not only a treat for those who attend, but as near as possible carrying out the season's greetings.

Sabbath evening at 7:45, under the management of Mr. Leroy Harris, the Senior Choir of Zion Baptist church will render the cantata, entitled "Our Living Lord." Much time has been spent to accomplish the required result for this cantata.

Clarence W. Johnson, infant son of Mr. and Mrs. Elmer Johnson, of 229 East Church street, died Thursday morning at 8 o'clock. Burial Friday afternoon at 2 o'clock from residence.

Word has been received here of the illness of Miss Elizabeth Hampton, who was called some time ago to Cochran, Ga., to the bedside of her invalid mother, who was visiting her daughter and son-in-law there.

Mrs. Marie Night of East Main street, has returned home after spending two months in Athens, O., visiting her parents.

Property holders are exchanging places. Yesterday Mrs. Sallie Perry, of East Main street, through her agent, Mr. Peter Hilliard, sold her homestead to Mr. Wm. H. Schields.

Mrs. Anna Jones and two children of the Jamestown pike, left this morning for Piqua, O., for a few days' visit with her mother, Mrs. E. Clark, and other relatives there.

A large crowd greeted Miss Emaline Tindley of Philadelphia, at Zion Baptist church last night. The audience was held spellbound from start to finish, with the high order of musical attainments with which this young woman is endowed.

THIEVES ROB ERVIN GRAIN ELEVATOR; SECURE ONLY DOLLAR

Only about one dollar in money was secured by burglars who forced an entrance into the grain elevator of Ervin Bros. and Davis on South Collier street, sometime Thursday night.

The thieves ransacked a cash drawer, securing only about a dollar. No money is kept in the safe and a notice posted on the safe door gives that information with further instructions as to how to open. The burglars took chances on the truth of the statement, however, and made a thorough though unavailing search

through the contents of the safe. A back door was found open Friday morning but whether this was used both as a means of getting in the building as well as of egress, is not known.

LEAPS TO DEATH FROM POLE'S TOP

Dayton, O., April 2.—Climbing to the top of a 60-foot telephone pole at 6:45 o'clock Thursday evening, Steve Nick, 22, 1219 West Fourth street, Dayton, leaped to his death on the ground below.

Nick, who conducted a west side tailor shop, had been ill for the past month. Minus George, who lives in Oxford, O., paid him a visit Thursday afternoon, and the two visited friends in the neighborhood. On his way home, Nick attempted to hurl himself in front of a train, but was prevented from doing so by George. When out of sight of his friend for a minute, Nick climbed to the top of the pole and in another instant his body struck the ground.

The Cold That Hangs On

This is No. 5 of a series of advertisements, prepared by a competent physician, explaining how certain diseases which attack the air passages—such as Pneumonia, Influenza, Whooping Cough, Measles or even a long continued Cold—often leave these organs in an inflamed, congested state, thus affording a favorable foothold for invading germs. And how Vicks' Vapo-Rub may be of value in this condition.

A cold is simply an inflammation of some part of the air passages—throat, larynx or bronchial tubes—just like a sore is an inflammation of the skin. A long continued cold means constant inflammation and this constant inflammation frequently weakens the air passages so that they become an easy point of attack for invading germs of more serious diseases. A "cold that hangs on," therefore, is simply nature's "red flag" indicating that there is "trouble below," and this warning should never be neglected.

Nightly applications of Vicks' Vapo-Rub will aid nature to clear up that inflammation. Because Vicks acts locally by stimulation thru the skin to draw out the inflammation, attract the blood away from the congested spots

and relieve the cough. In addition, the medicinal ingredients of Vicks are vaporized by the body heat. These vapors are breathed in all night long, thus bringing the medication to bear directly upon the inflamed areas.

Vicks should be rubbed in over the throat and chest until the skin is red—then spread on thickly and covered with hot flannel cloths. Leave the clothing loose around the neck and the bed clothes arranged in the form of a funnel so the vapors arising may be freely inhaled. If the cough is annoying, swallow a small bit of Vicks the size of a pea.

Samples to new users will be sent free on request to The Vicks Chemical Company, 235 Broad Street, Greensboro, N. C.

1. This company has a ten-year record of successful operation, and today ranks twelfth among tire manufacturing companies in this country. In 1918 the policy was changed from manufacturing a medium grade product for the jobbing trade, to a high quality tire, which is now distributed through dealers direct. The number of branches was increased from four to fifteen. This transition resulted in a loss and expense of several hundred thousand dollars through the discarding of materials and machinery, liberal adjustments and the reorganization of the entire sales plans. Earnings for 1918 and 1919 were decreased to this extent. Under the new policy, because of better prices, a considerable reduction in the number of tires produced gives the same cash value in volume of business, and permits of a 100% expansion without material increase of investment in fixed property.

The company has an excellent fabric situation, having a supply, contracted for at low prices, sufficient to meet requirements for 1920. Tire prices were recently increased which should increase 1920 earnings substantially.

Earnings. The average net earnings for six years ending November 30, 1919, after Federal Taxes, were in excess of two times the annual dividend requirements of the preferred stock.

Values. Each share of preferred stock is protected by \$182.00 of net tangible assets and \$130.00 of net quick assets. The tangible book value of the common stock is \$20.71 a share. These figures are without consideration for an appraisal made by the American Appraisal Company showing sound values of \$458,000 in excess of book value of fixed property.

Dividends. Regular quarterly dividends have been paid on preferred stock outstanding for six years.

An initial dividend of 75 cents a share was paid on the No Par Value Common Stock, March 1, 1920. Total cash dividends of 82.23% and stock dividends of 83.13% have been paid on the common stock since 1912.

All legal matters pertaining to this issue have been passed upon by Messrs. Squire, Sanders & Dempsey, Cleveland, for the bankers, and L. M. Kyes, East Palestine, Ohio, for the company.

The books and accounts are regularly audited by Messrs. Ernst and Ernst, Certified Public Accountants.

No fractional shares will be issued, but an adjustment will be made for fractional shares of common stock at the rate of \$30.00 per share.

Price. 5 shares 7% Preferred, 1 share No Par Value Common: \$500 and accrued dividend on preferred from April 1, 1920.

REPEAT ADVICE ABOUT SPRING BLOOD PURIFIER

Proves Many Serious Ailments Due to Poison in System Says Nothing Better Than Sulphur, Cream of Tartar and Herb Extracts in Tablets Called "Sulphurb Tablets."

The wisdom of ages placed in a little sugar coated tablet—Sulphurb Tablets! Remember grandma's remedy—sulphur and cream of tartar mixed in molasses—it was a nauseous dose, but it saved thousands of lives by purifying the blood in the Spring. Thousands avoided rheumatism and serious fevers by taking it. Now you can get the benefits by taking a little tablet regularly containing the blood purifying, system regulating medicines that grandma relied on.

Constipation, inactive kidneys are overcome and catarrh, neuralgia, rheumatic pain and many other "poison symptoms" vanish after a course of Sulphurb Tablets. The best medicine for spring lethargy and thick sluggish blood. Every package is guaranteed to satisfy or money back. 60c in sealed tubes of druggists anywhere. Be sure to get the genuine Sulphurb Tablets (not sulphur tablets.)

bore the peculiar title of Pippin the Short. He was brought up in the rough surroundings and the barbaric manner of the Frankish court of those days, and grew up ignorant of letters but strong in body and skillful as a fighter.

At his father's death, the kingdom was divided between Charles and his brother Carloman, whom he hated. He acquired one extra kingdom by his first wife, his brother's kingdom when his brother died, and much more territory by the use of a strong army. In a comparatively short time, Charles added Italy and part of Germany to his kingdom. Before his death he seems to have ruled most of Europe.

He died when he was about 72 years old. Two hundred years later, when his tomb was opened, it was found that he had been buried sitting

up on a throne with a golden crown on his head and a golden sepulchre in his hand. A few hundred years after that the suffering and destruction that his army had caused was forgotten, his lax morals were passed over, and he was made a saint by one of the Popes.

First Presbyterian Church, Market and King Streets, J. O. C. McCracken, Pastor. The Sacrament of the Lord's Supper will be administered at 10:30 a. m. Sabbath school at 9:15. A chorus of twenty-five voices under the direction of Mrs. J. Perry Shumaker will render the cantata, "The Resurrection and the Life," taking the place of the evening service at 7:30. The annual congregational meeting and social will take place on Monday evening at 7:30. Miweek service on Wednesday evening at 7:30. The public is cordially invited to all these services.

The most elaborate musical program ever given by the choir of the First Presbyterian church, will be the Easter cantata, "The Resurrection and the Life," by Ira Bishop Wilson, which will be rendered Sunday evening, under the direction of Mrs. J. P. Shumaker, with Miss Wilfre Zartman at the piano.

The cantata will be rendered by a chorus of 25 trained voices. Solo parts will be taken by Miss Effa Stroup, Mrs. H. L. Sleet and Raymond Shumaker and there will be a quartette with obligato.

The service will open at 7 o'clock, and will last one hour.

A beautiful Easter setting is being arranged at the Presbyterian church, many white blossoms decking the interior.

HUTCHISON & GIBNEY

"Unless we love our neighbors, we cannot love God, and unless we love God and our neighbors, we cannot save our souls," said Father Varley. "I am not alone in the state of unrest of the world. Men, he declared, are losing their respect for authority, and for those in authority. They are dissatisfied with their status in life, and are ready to take extreme measures to bring about conditions they desire. 'I will therefore be again mutual' and respect among people for one another, and at the same time love of God, there is little hope of cessation of the strife, he declared. 'God grant,' he said, 'that Jesus Christ, hanging upon the Cross may obtain from His Father, the grace for men, that they may see and understand.'"

BRIDE THIRTEEN TIMES
Cedar Rapids, Iowa, April 2.—Mrs. Alice Yeakum, a bride of thirteen times, was divorced a few days ago from her last "better half." Her marriages took place in Indiana, Michigan, Missouri, Wisconsin, Iowa and Nebraska.

John Yeakum, who married her at St. Joseph, Mo., two years ago, was the thirteenth husband.

Safe, proper directions in each
"Bayer" package

The "Bayer Cross" placed on tablets means you are getting true "Bayer Tablets of Aspirin" proved safe by millions of people—the genuine Aspirin prescribed by physicians for over eighteen years.

In every handy "Bayer" package are proper directions for Colds, Headache, Toothache, Earache, Neuralgia, Rheumatism, Lumbago, Sciatica, Neuritis and for Pain generally.

Tin boxes of 12 tablets, cost only a few cents. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacture of Monaceticacidester of Salicylicacid.

Thousands of women have kidney and bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

Pains in the back, headache, loss of ambition, nervousness are often times symptoms of kidney trouble.

Don't delay starting treatment. Dr. Kilmer's Swamp-Root, a physician's prescription, obtained at any drug store, may be just the remedy needed to overcome such conditions.

Get a genuine or large size bottle immediately from any drug store.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention The Gazette or Republican.

Dayton Lady Weak and Nervous Asked What She Should Take

THEY SAID HYPO-COD

With a hundred tonics on the shelves, the well informed up-to-date druggist declared without hesitation: "Earle's Hypo-Cod is the best for general rundown condition. This is because of the remarkable improvement embodied in this superb preparation and because of the two known therapeutic properties of its ingredients. Mrs. Ida Phillips, a well known lady of Dayton declares that her druggist was surely right when he said Earle's Hypo-Cod would build her up. To quote her own words she said:

"I was all worn out. I have worked hard all my life and I really began to believe I was going into a rapid decline. I was all rundown and felt tired and weary all the time. I slept fairly well but all through the night I would dream, dream, dream. In the morning, I would wake up as tired as weary as when I went to bed. My nerves were almost shattered when I finally decided to suffer no longer and asked my druggist for a tonic. They told me Earle's Hypo-Cod was one of the best. The tonics they had so I bought a bottle. I've taken almost three now and feel stronger and better in every way. I am not nervous like I was and I gladly recommend it to others," declared Mrs. Phillips, whose address is 312 1/2 Home Ave., Dayton, Ohio.

Thousands of weary, wornout women owe their robust health to a bottle of Earle's Hypo-Cod. It is especially good for one at the time of year. Secure a bottle today at your druggists.

Earle's Hypo-Cod is sold here at Sohn's Drug Store (opposite Court House) and the leading druggists in all nearby towns. Price \$1.25 per bottle with tax.

AMERICANIZATION IS KEYNOTE OF ADDRESS TO MISSIONARY SOC.

Mrs. J. O. C. McCracken, wife of the pastor of the Xenia Presbyterian church, read an interesting paper on work among the American Negroes, at the convention of the Presbyterian Missionary Society, in Dayton, Thursday afternoon.

This work was given particular thought at the afternoon session, in connection with Americanization, and in Mrs. McCracken's paper, the thought was well centered.

Mrs. McCracken divided the life of the Negro into three periods: First, his life in ante-bellum days, when for the most part he is permitted to live in ignorance and squalor. At that time, she said, he had a very unfair chance, because of race prejudice.

The second period, she set forth, was that of emancipation days, when, though he was freed from actual slavery, he was, nevertheless, thrust upon the world and his new freedom, without preparation. In this connection, Mrs. McCracken spoke of the work that had been done by the missionary boards for the Negro, dwelling particularly upon schools, etc., that have been established in the south.

She designated the third period, as that of the late war, when the Negro proved himself such a splendid citizen and soldier. She then made an earnest plea for him, in the way of education that would place him in a sphere where he has a right to live. She spoke of the development throughout the south, of Negro schools.

A banquet, which brought together senior and junior delegates to the convention, was held Thursday night. The convention closed Friday afternoon. A number of Xenia women are attending the sessions.

Would You Gain a Pound A Week for Three Months?

Then begin taking regularly three grains of hyponuclease tablets, which are made from a health-germ of ordinary yeast and combined with hypophosphites and an absorbent phosphorus.

Physicians and chemists assert that this tablet is very largely used for increasing the weight and improving the nervous system because of its aid to digestion, assimilation and absorption. The food elements which go to make blood and solid tissue is retained when this treatment is regularly used for several months. Most apothecary shops supply them in sealed packages.

He is tall (almost six feet), weighs 185, plays golf, works his own garden and is stronger than most men. He is the picture of health, looks as vigorous as a football player.

But he is a bit anemic, gets tired too easily, is inclined to constipation, is more nervous than a normal man should be, and is subject to disfiguring pimples.

He told all this himself, and added "Whenever I have the sense or the memory to take two or three bottles of Gude's Pepto-Mangan in the late fall and early spring, I am as right as a trivet. The trouble is, I forget. If I hired a doctor only to remind me to take Pepto-Mangan twice a year, it would be worth hundreds of dollars to me."

Gude's Pepto-Mangan is an absolutely dependable red-blood builder in all conditions of lowered vitality not due to serious disease of the vital organs. It improves the appetite, imparts color to the cheeks, and creates new hope and ambition in those who have become pale, weak, and listless. Physicians recommend Gude's Pepto-Mangan. When you order, be sure the word "Gude's" is on the package. Without "Gude's" it is not Pepto-Mangan. Furnished in both liquid and tablet form. For sale by all druggists.—Adv't.

"You bet I do," was the reply, "but I've got to buy soap!"

"I think," said the solemn professor, "that we shall find a way to communicate with Mars."

"Don't you bother about that," replied Dustin Stax. "If you want to get a neat little endowment from me, you devise some reliable means of getting central to connect me with my office."

Four-year-old Harold was going away on a visit. His mother had been giving him final instructions in table etiquette and the general importance of being polite.

His six-year-old sister listened with increasing disdain. Finally, unable to bear it any longer, she said: "Now, mother, if Harold's going up there to act a damn sissy, I'm not going."

Canton, O., Mar. 31.—After the commander of the local army and navy union had notified members of the union through Canton newspapers to attend the funeral of W. H. Koontz 3 miles west of Canton, he took flags from the post room and went to the home to drape the casket for the funeral. When he reached the home he found Mr. Koontz sitting in bed and eating a bowl of bread and milk. The war veteran had been reported to the navy union.

In 2000 Counties This Month

*The Forces of the Church
of Christ Will Gather To
Face the Facts.*

IN 2000 counties in the United States the pastors and laymen of 30 great denominations will meet in conference this month.

It is the kind of conference that generals hold before a critical engagement; that business men hold before entering a new market. A conference of judgment, not emotion; a clear-eyed facing of the facts.

A Survey that Business Men Must Admire

For more than a year hundreds of workers have been quietly engaged in making a scientific survey of the mission fields, and of America county by county.

The facts developed are startling. No such picture of America's religious situation has ever before been drawn.

On the basis of these surveys thirty Protestant denominations are uniting in a

Nation Wide Cooperative Campaign

Each of the thirty denominations has its own "Forward Movement" organized and officered. The Interchurch World Movement is the clearing house for all of these.

It is the agency which the churches have created to avoid duplication, to foster cooperation and make sure that every man and dollar render the utmost service possible.

The month of April will be devoted to making the facts of the survey known to America; in the week of April 25th-May 2nd, will come a united simultaneous financial campaign.

Whether You Are Inside the Church or Out

To every man and every woman who loves his country, these 2000 county conferences are vitally important.

For the facts developed by this great survey show vividly what forces are at work in America—and what kind of a country this country is to be.

See that the pastor of your church appoints delegates. Any pastor can tell you the conference place and date. Or write direct to the

Pastor Seriously Ill
J. A. Gargill, pastor of the Church of Christ, still continues in a critical condition from dropsy and organic heart trouble.

Brother Is Storm Victim
Charles Fields was called to Darke county on account of the death of his brother, who lost his life in the tornado that devastated that section.

Miss Letha Wilkinson of Dayton, is the guest of Mr. and Mrs. Otto Thorpe.

Mrs. W. S. Galvin has gone to Marshall, Ill., to spend a couple of weeks with her daughter, Mrs. W. M. Page and Mrs. Fred Ziegler.

Elmer Roberts and Cammie Roberts of London, came to Jamestown to attend the funeral services of their aunt, Mrs. Harvey Goodbar.

W. A. Paxson and his daughter, Mrs. Hughes Moyer, and Miss Dorothy Moyer, will spend the week end in Cincinnati, with Stanley Paxson and family.

Mrs. Frank Myers of Springfield is the guest of friends in Jamestown.

To Give Program
The Bible school of the M. E. church will give their Easter program on Sunday evening, which will take the place of the regular sermon by the pastor, Rev. W. A. Cooper.

Funeral Services Held
The body of Mrs. Harvey Goodbar was brought from Dunkirk, Ind., to Jamestown on Monday, for burial in the family lot in Jamestown cemetery. The remains were accompanied by her husband and two daughters and a sister, Mrs. Eva Thorpe, of Dunkirk; Mrs. Charles Knick, of Xenia, and Mrs. Theodore Hughes of Jamestown. The body was brought to the home of her brother, James Roberts, and the funeral services were held at the Friends church in Jamestown, conducted by the pastor, Miss Bertha Day. Music was furnished by the choir of the church. Those serving as pallbearers were nephews of Mrs. Goodbar.

ITCHING, BURNING SKIN DISEASES

Are Caused by Poisoned Blood.

Authorities are now of the opinion that many forms of eczema and eruptive skin diseases are caused by humors in the blood. This state of the blood may be due to irregular habits, improper action of the liver, kidneys, stomach or some contracted blood disease. Internal treatment that goes directly to the root of the trouble—is the most dependable means of getting a real relief. Such a treatment is Prescription C-2223, a reliable blood purifier. This splendid medicinal preparation was used for years by a successful physician in his private practice. It produced such satisfactory results for his patients and has since relieved so many thousands that it's possible that it will give you relief.

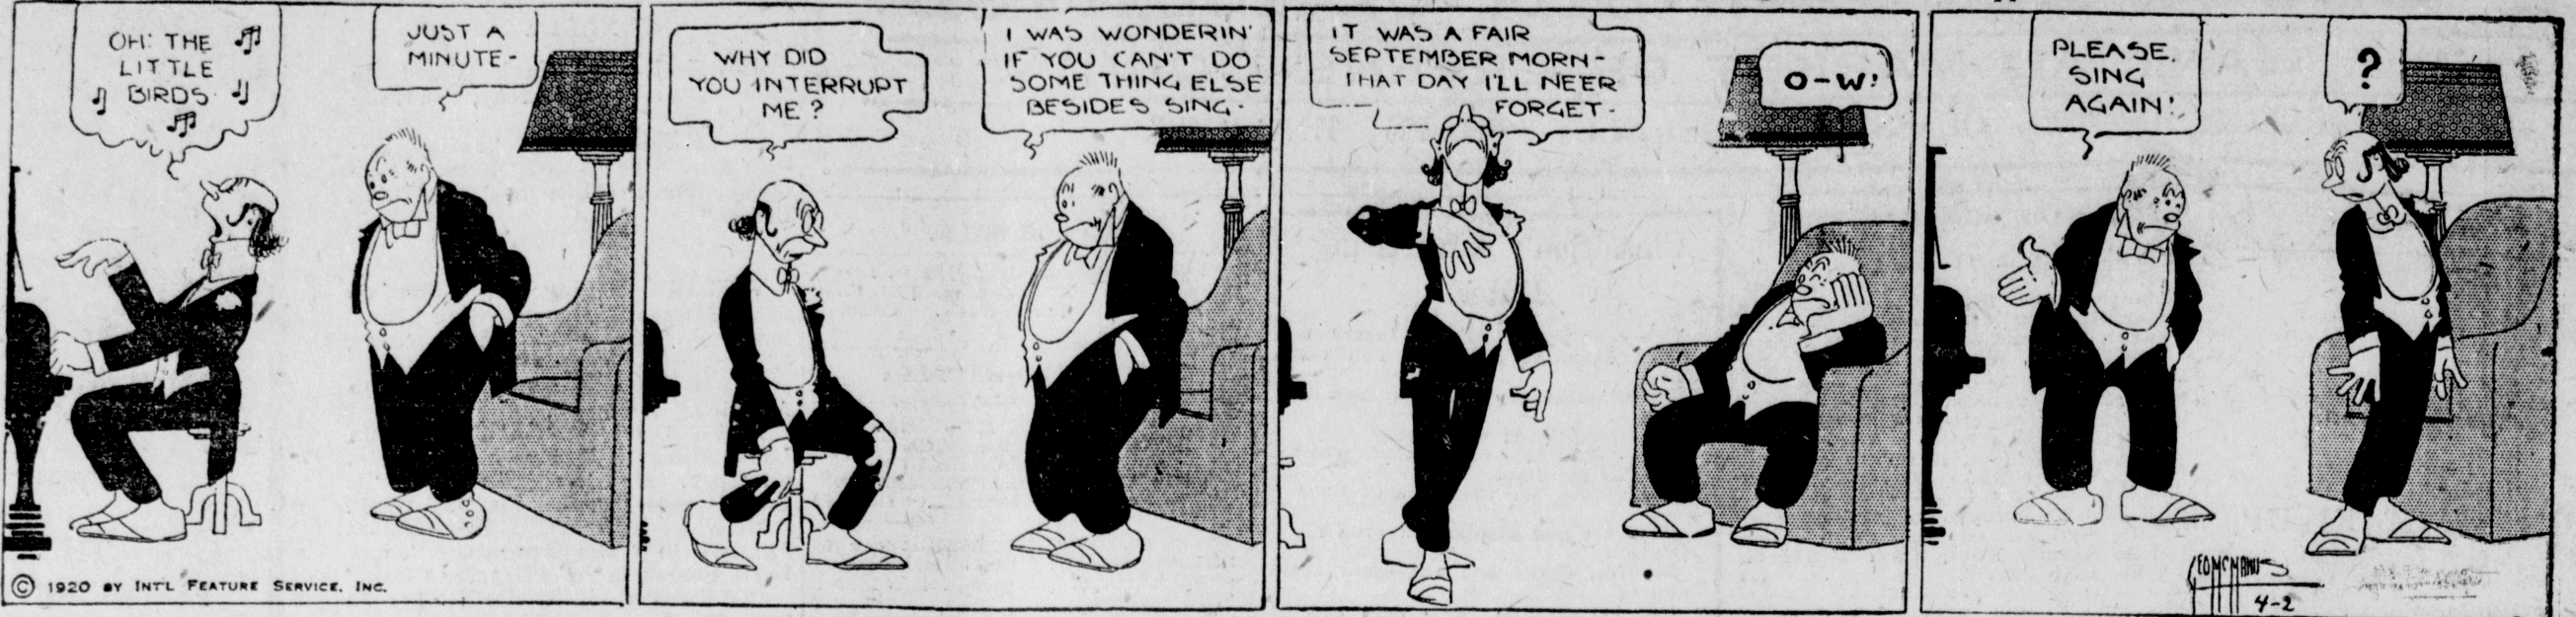

If you are now suffering the tortures of burning, itching eczema, or any eruptive skin disease, and all other medicines and doctors have failed, go to your druggist and get a \$1.75 bottle of Prescription C-2223. If two bottles do not give you sufficient benefit to justify your continuing the treatment, take the empties back to the same druggist and get the \$3.99 that you paid for the prescription.

While taking Prescription C-2223, the bowels should act regularly, to help throw off the poisons which are causing you trouble. There is nothing better than 2223 Liver Pills. They have certain tonic effects and do not sicken or gripe. One is a dose.

If your druggist will not supply you with Prescription C-2223 and 2223 Liver Pills, both will be sent you postpaid on receipts of \$1.75. Suppose you write the 2223 Laboratory, Memphis, Tenn., 132 South Second St., for literature, 1920 Almanac and sample of the Pills.

HOW TO COOK RABBIT
Rabbit and Oyster Pie—Prepare rabbit as usual. Stew in clean water, to which has been added a little margarin, salt and pepper. When tender, drain. Stew in liquor one pint oysters. When edges curl, drain. Have ready a pan lined with a good flaky dough rolled about one-quarter inch in thickness. Place a layer of rabbit than a layer of oysters; add a little salt, pepper and a few specks of margarin; then another layer of rabbit, and so on until the ingredients are used.
Cover with the liquor; cover with dough as you would pie and bake.
Fried Rabbit—Cut rabbit in suitable pieces, soak in salt water, wipe dry. Roll each piece in a mixture of flour, salt and pepper. Fry in hot grease or oil. The fat from fried salt pork will give a good flavor. A small onion fried with a rabbit is liked by many.
Cook slowly until done—about forty or forty-five minutes. Add flour to the fat in the pan and milk

for a gravy. Put the rabbit on a hot platter, pour over the gravy and garnish with pieces of toast and parsley. Serve hot with currant or other tart jelly or fried green peppers.

Stewed Rabbit—Cut rabbit in suitable pieces. Soak in salt water. Put into stew pan with a little boiling water and season. Add a little butter. Simmer slowly and when nearly done add parsley and a chopped onion. When entirely done, thicken gravy with browned flour. Serve with dumplings or potato balls.

Casserole of Rabbit—Cut the rabbit into suitable pieces. Soak in salt water, wipe dry. Dip in mixture of flour, salt and pepper and brown quickly in hot fat or oil. As the pieces are browned put them in a casserole.

Chop an onion fine, fry it also in the fat and add to the rabbit. Add two cups of tomatoes, one-half cup of uncooked rice, one teaspoon salt, one green pepper cut fine.

Cover the casserole and let simmer in the oven or on top of the range until the meat is tender. Add more salt and pepper as needed, before serving.

Roasted Rabbit—Gash thick part of flesh on back, if rabbit is an old one, lard with fine strips of bacon or fat salt pork. Boil liver, chop and mix with bread crumbs, a slice of fat pork, seasoning well with salt, pepper and herbs. Use the water in which the liver was boiled to moisten the stuffing and a beaten egg to hold it together. Stuff the body and rub it with oil or butter. Roast, basting frequently until done, using milk for the basting. About two hours will be required for the roasting.

Serve on a hot platter, make gravy, season it with a teaspoon of kitchen bouquet, juice of a small onion, and a tablespoon of lemon juice. Garnish with lemon slices dotted with currant jelly and parsley.

nesday with her mother, Mrs. John Lipp.

Mrs. George Garver and sons, of Osborn, spent Tuesday with her parents, Mr. and Mrs. Frank Stevens.

Mr. Clarence Routzong spent Wednesday with his mother and Mr. and Mrs. Ralph Routzong.

THE WOMAN WHO LOVED---AND EARNED

BY JANE PHELPS
A MODERN STORY OF HOME AND BUSINESS

A TALK WITH MARY

Chapter 93

I often thought of my mother, and wished she might have lived so that we could talk things over. Except for Mary Ryan, I really had no one in whom I could confide, and she was even younger than I.

At times the thought of Robert's aunt came to me. While she had been arbitrary at times, and I had parted with her almost in anger, it had always been in my mind, that some day—way in the future, when we had a lovely home of our own with maids to wait upon us—I would ask her to visit us again. There had been many really fine things about her; some of them I had scarcely noticed while she was with us, but they came to me afterward when I was reminded again and again of her.

She had darned all our stockings—a task I hated. She had mended and cared for Robert's clothes in a way I was incapable of doing because I didn't know how. She had been more than kind when either of us felt indisposed. In many ways she had been also an interesting companion.

"I wonder what she would say if she knew how well Robert was doing," I said to myself recalling that just before she left, Robert had lost his position.

This longing to talk to someone at last drove me to telephone Mary.

"Get a day off, Mary, and spend it with me."

"Can't," Madame's as sore as can be if I'm not there every morning bright and early. Little Bright eyes don't have it any too easy. WoW! Won't she have a fit when she finds she's going to lose me! I know she can't replace me—they don't make many modest little violets nowadays."

"I never should think of calling you modest," I laughed. Then, "Come Sunday. We can talk while we are doing the dishes."

"Hear that hard-hearted wretch! She invites me not only to listen to her gabble, but rubs it in by telling me I am expected to help-do dishes."

"Stop fooling, Mary, and say you'll come."

"I'll get Saturday afternoon off. Will that do?" she asked soberly. "I didn't mean to tease you Gerry, but your voice sounded so forlorn I wanted to cheer you up."

"I'm not forlorn as you call it, not really. But I must talk to some one, and you are the only one I know who will listen to me."

"Well, here I am!"

It was Saturday, and Mary had

come directly from the shop.

I had luncheon all ready so we sat right down to eat and talk.

"You don't mean he is getting \$40 now?" she asked after I had told of Robert's raise.

"Yes, and the promise of \$50. I think it was the window trimming that clinched it, Mary. You should have seen me bossing. But I am so happy that Robert is getting back his nerve. I was afraid he never would. You remember, I am ashamed when I think how easily I was discouraged about him."

"From what you say it seems to me that it was your nerve that got him running true to form once more. Wasn't all them suggestions yours?"

"No—not all. He told me first that he was sure they could do more business if the place was more up to date. Then I set my wits to work."

"Um—I see. Instead of being fed up with hats, you had time to think of Robert. Good idea."

"You talk as if I wasn't always interested in him."

"In him—yes. In his work, no! You didn't have time. Selling hats didn't leave much time to think about helping a man sell sporting goods. You've struck the right gait with Bob. Keep it up."

"I intend to—altho I shan't have much time to give him when I go back to the shop."

"Don't go back!"

Tomorrow—Up to Gerry.

GERMAN WORKERS WILL HOLD RUHR

London, April 1.—"German workmen still dominate the Ruhr district," said an Exchange Telegraph dispatch from Berlin this afternoon. "The situation is very disturbed. Bandits are looting the countryside. Fresh strikes are endangering the supply of coal. The Mueller government cannot be regarded as secure. The power of the majority socialists is passing into the hands of the trade unionists, but the workmen are returning to work."

Here in Xenia you can save time and money by dealing at the
Xenia Garage Company.

Whether tractor, truck or motor car our service applies just the same. We have established a complete equipment and stock here for your convenience and use, believing that genuine service at fair prices will be met by increased business from customers who appreciate it.

In every line we have selected only those products which we know will give our customers the maximum satisfaction at a reasonable price.

Take the question of oil for instance. We handle the Havoline oils, because we have been shown they give the best results. We can supply you in any quantities you desire, at lower prices than you can contract for today at the Refinery. You get the benefit of our foresight in buying.

And Goodyear and Goodrich tires, tubes and accessories are another part of our selected line. The satisfaction of our customers indicates clearly the wisdom of our choice. Your size is available here and with it goes our regular inspection service which enables you to get maximum service.

Everything of advantage or necessity to the motor car in accessories can be found in our stock.

We are distributors for the Fordson Tractor, the Tractor built by the same master-minds, which built the Ford car. Don't take our word ask one who owns a Fordson Tractor about his Tractor and the service he gets from us.

Also our Top and Vulcanizing Department is ready to give you prompt work, and also we employ nothing but first-class mechanics in our Repair Department who will give you first-class work. In fact you will find us equipped in every Department to give you prompt service.

Make The Xenia Garage Company your Headquarters and benefit from the service you get.

son, March 31.—The German government is sending infantry, cavalry and tanks for an offensive against the reds in the Ruhr district, said an Exchange Telegraph dispatch from Munster today. Both the reds and the government troops under General Von Watter in Westphalia are preparing for further hostilities.

WITH FINGERS!
CORN'S LIFT OUT

Freezone is magical! Corns and calluses lift right off—Doesn't hurt a bit

A few cents buys a tiny bottle of the magic Freezone at any drug store. Apply a few drops of Freezone upon a tender, aching corn or callus. Instantly that troublesome corn or callus stops hurting, then shortly you lift it out, root and all without any pain, soreness or irritation. These little bottles of Freezone contain just enough to rid the feet of every hard corn, soft corn, corn between the toes and the calluses on bottom of feet. So easy! So simple. Why wait? No humbug!

A BOY'S CLOTHING ADVERTISEMENT.

Honest now—can't you look back a few birthdays and recall how sincerely you longed to be a blacksmith; whereas mother had it all planned that you were going to make sparks fly from the pulpit?

American boys have always been strong for strength—and you being a native son, were no different than the boys of today.

Perhaps one reason for our marked success in Boys' Clothes is that we know the ways and wishes of a boy from personal experience, a good memory, plus a de luxe edition of Mark Twain. Your son deserves this kind of clothing consideration in his next suit.

led "Sulphur Tablets."

The wisdom of ages placed in a little sugar coated tablet—Sulphur Tablets! Remember grandma's remedy—sulphur and cream of tartar mixed in molasses—it was a nauseous dose, but it saved thousands of lives by purifying the blood in the Spring. Thousands avoided rheumatism and serious fevers by taking it. Now you can get the benefits by taking a little tablet regularly containing the blood purifying, system regulating medicines that grandma relied on.

Constipation, inactive kidneys are overcome and catarrh, neuralgia, rheumatic pain and many other "poison symptoms" vanish after a course of Sulphur Tablets. The best medicine for spring lethargy and thick sluggish blood. Every package is guaranteed to satisfy or money back. 60c in sealed tubes of druggists anywhere. Be sure to get the genuine Sulphur Tablets (not sulphur tablets.)

FIGHTING HARD IN CONGRESS FOR BEER

Rep. Fred A. Britten.

Representative Fred A. Britten of Chicago, Republican, has opened a fight on the Volstead act by proposing a bill amending the act to provide for the manufacture of beer containing five per cent of alcohol and wine containing fourteen per cent. "The next congress will be wet," says Britten.

bore the peculiar title of Pippin the Short. He was brought up in the rough surroundings and the barbaric manner of the Frankish court of those days, and grew up ignorant of letters but strong in body and skillful as a fighter.

At his father's death, the kingdom was divided between Charles and his brother Carloman, whom he hated. He acquired one extra kingdom by his first wife, his brother's kingdom when his brother died, and much more territory by the use of a strong army. In a comparatively short time, Charles added Italy and part of Germany to his kingdom. Before his death he seems to have ruled most of Europe.

He died when he was about 72 years old. Two hundred years later, when his tomb was opened, it was found that he had been buried sitting

up on a throne with a golden crown on his head and a golden sepulchre in his hand. A few hundred years after that the suffering and destruction that his army had caused was forgotten, his lax morals were passed over, and he was made a saint by one of the Popes.

First Presbyterian Church, Market and King Streets, J. O. G. McCracken, Pastor. The Sacrament of the Lord's Supper will be administered at 10:30 a. m. Sabbath school at 9:15. A chorus choir of twenty-five voices under the direction of Mrs. J. Perry Shumaker will render the cantata, "The Resurrection and the Life," taking the place of the evening service at 7:30. The annual congregational meeting and social will take place on Monday evening at 7:30. Miweek service on Wednesday evening at 7:30. The public is cordially invited to all these services.

The most elaborate musical program ever given by the choir of the First Presbyterian church, will be the Easter cantata, "The Resurrection and the Life," by Ira Bishop Wilson, which will be rendered Sunday evening, under the direction of Mrs. J. P. Shumaker, with Miss Wilfre Zartman at the piano.

The cantata will be rendered by a chorus of 25 trained voices. Solo parts will be taken by Miss Effa Stroup, Mrs. H. L. Sleet and Raymond Shumaker and there will be a quartette with obligato.

The service will open at 7 o'clock, and will last one hour.

A beautiful Easter setting is being arranged at the Presbyterian church, many white blossoms decorating the interior.

MONTGOMERY CO. FARMER IS DEAD

Warren M. Gebhard, 67, Montgomery county farmer, died at his home on the Valley pike, after a lingering illness, last night, at 9:30 o'clock.

He had lived in the community all of his life, having been born in Dayton. His wife died 12 years ago, and since that time he had been living on his farm on the Valley pike. He leaves a brother, Hibbard, of Denver, and two sisters, Mrs. W. H. Payne, and Mrs. William Mayer, both of Dayton.

MOST PEOPLE IN NEED OF SPRING TONIC THIS YEAR

Sickness General and Thousands are Run Down; Volta-Tonic Ideal Builder.

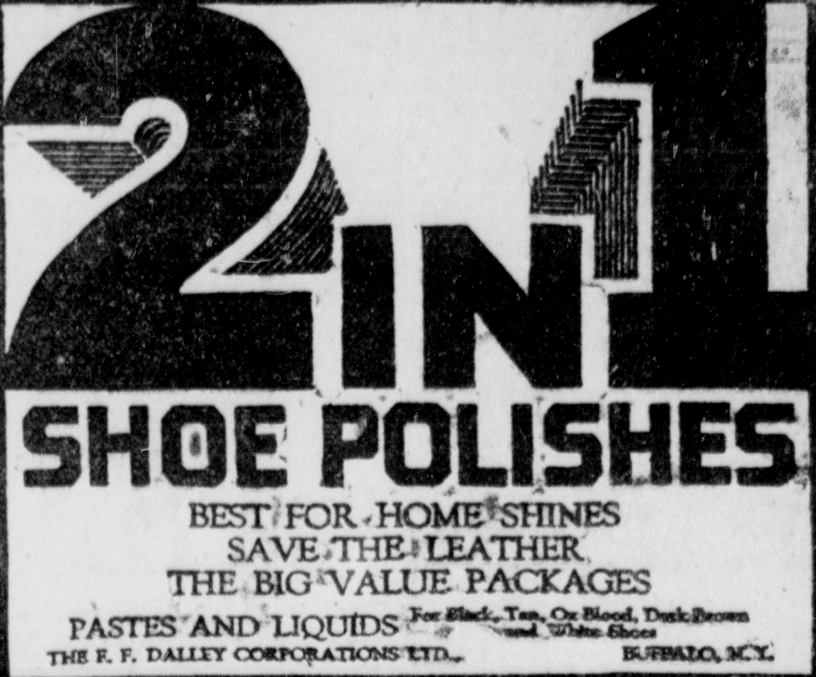

Nearly everybody needs a strengthening, health-building spring tonic this year.

Influenza came back in January and February and thousands of people who had it are weakened and run down as a result. In addition, what appeared to be a general wave of sickness passed over the country the last part of February and the first of March. Complaints were common during that period. Bad colds, la grippe and other forms of weakening sickness were reported everywhere.

As a result of these things thousands of men and women are today weak and run down and it is believed that the need of a strengthening, health-building spring tonic is more general this year than ever before in history. Volta-Tonic, "Builder of Strength," is already being taken by many people as a spring tonic and is what countless other men and women need.

Volta-Tonic invigorates the entire system and is a wonderful strength-builder. Volta-Tonic starts its work by bringing a normal, healthy appetite and putting the digestive organs and bowels in good condition. It helps the stomach take strengthening nutrition from food to enrich and build up the blood and to nourish the organs and tissues of the body. Volta-Tonic also soothes the nerves and permits sound, energizing sleep every night. As a result, full normal strength and health soon come to the weakened run down man or woman.

People who are weak and run down with influenza, la grippe, colds and other sickness should take Volta-Tonic this spring so that they will be strong and well and ready to enjoy summer when it comes. Volta-Tonic, "Builder of Strength," is being specially introduced in Xenia at Sayre and Hemphill's and in Jamestown at W. F. Harpers.

HOW TO COOK RABBIT

Rabbit and Oyster Pie—Prepare rabbit as usual. Stew in clean water, to which has been added a little margarin, salt and pepper. When tender, drain. Stew in liquor one pint oysters. When edges curl, drain. Have ready a pan lined with a good flaky dough rolled about one-quarter inch in thickness. Place a layer of rabbit than a layer of oysters; add a little salt, pepper and a few specks of margarin; then another layer of rabbit, and so on until the ingredients are used.

Cover with the liquor; cover with dough as you would pie and bake.

Fried Rabbit—Cut rabbit in suitable pieces, soak in salt water, wipe dry. Roll each piece in a mixture of flour, salt and pepper. Fry in hot grease or oil. The fat from fried salt pork will give a good flavor. A small onion fried with a rabbit is liked by many.

Cook slowly until done—about forty or forty-five minutes. Add flour to the fat in the pan and milk

for a gravy. Put the rabbit on a hot platter, pour over the gravy and garnish with pieces of toast and parsley. Serve hot with currant or other tart jelly or fried green peppers.

Stewed Rabbit—Cut rabbit in suitable pieces. Soak in salt water. Put into stew pan with a little boiling water and season. Add a little butter. Simmer slowly and when nearly done add parsley and a chopped onion. When entirely done, thicken gravy with browned flour. Serve with dumplings or potato balls.

Casserole of Rabbit—Cut the rabbit into suitable pieces. Soak in salt water, wipe dry. Dip in mixture of flour, salt and pepper and brown quickly in hot fat or oil. As the pieces are browned put them in a casserole.

Chop an onion fine, fry it also in the fat and add to the rabbit. Add two cups of tomatoes, one-half cup of uncooked rice, one teaspoon salt, one green pepper cut fine.

Cover the casserole and let simmer in the oven or on top of the range until the meat is tender. Add more salt and pepper if needed, before serving.

Roasted Rabbit—Gash thick part of flesh on back, if rabbit is an old one, lard with fine strips of bacon or fat salt pork. Boil liver, chop and mix with bread crumbs, a slice of fat pork, seasoning well with salt, pepper and herbs. Use the water in which the liver was boiled to moisten the stuffing and a beaten egg to hold it together. Stuff the body and rub it with oil or butter. Roast, basting frequently until done, using milk for the basting. About two hours will be required for the roasting.

Serve on a hot platter, make gravy, season it with a teaspoon of onion, bouquet, juice of a small onion, and a tablespoon of lemon juice. Garnish with lemon slices dotted with currant jelly and parsley.

THE WOMAN WHO LOVED---AND EARNED

BY JANE PHELPS
A MODERN STORY OF HOME AND BUSINESS

A TALK WITH MARY

Chapter 93
I often thought of my mother, and wished she might have lived so that we could talk things over. Except for Mary Ryan, I really had no one in whom I could confide, and she was even younger than I.

At times the thought of Robert's aunt came to me. While she had been arbitrary at times, and I had parted with her almost in anger, it had always been in my mind, that some day—way in the future, when we had a lovely home of our own with maids to wait upon us—I would ask her to visit us again. There had been many really fine things about her; some of them I had scarcely noticed while she was with us, but they came to me afterward when I was reminded again and again of her.

She had darned all our stockings—a task I hated. She had mended and cared for Robert's clothes in a way I was incapable of doing because I didn't know how. She had been more than kind when either of us felt indisposed. In many ways she had been also an interesting companion.

"I wonder what she would say if she knew how well Robert was doing," I said to myself recalling that just before she left, Robert had lost his position.

This longing to talk to someone at last drove me to telephone Mary.

"Get a day off, Mary, and spend it with me,"

"Can't!" Madame's as sore as can be if I'm not there every morning bright and early. Little Bright eyes don't have it any too easy. WoW! Won't she have a fit when she finds she's going to lose me! I know she can't replace me—they don't make many modest little violets nowadays."

"I never should think of calling you modest," I laughed. Then, "Come Sunday. We can talk while we are doing the dishes."

"Hear that hard-hearted wretch! She invites me not only to listen to her gabble, but rubs it in by telling me I am expected to help-do dishes. 'Stop fooling, Mary, and say you'll come.'"

"I'll get Saturday afternoon off. Will that do?" she asked soberly. "I didn't mean to tease you Gerry, but your voice sounded so forlorn I wanted to cheer you up."

"I'm not forlorn as you call it, not really. But I must talk to some one, and you are the only one I know who will listen to me."

I felt better after I had telephoned Mary. Wouldn't she be surprised when I told her of what Robert had accomplished? She had said all along that she thought he had a chance to get on with Mr. Burch, but I knew she would not expect any such quick advance as he had had.

"Well, here I am!" It was Saturday, and Mary had

come directly from the shop. I had luncheon all ready so we sat right down to eat and talk.

"You don't mind, he is getting \$40 now?" she asked after I had told of Robert's raise.

"Yes, and the promise of \$50. I think it was the window trimming that clinched it, Mary. You should have seen me bossing. But I am so happy that Robert is getting back his nerve. I was afraid he never would. You remember, I am ashamed when I think how easily I was discouraged about him."

"From what you say it seems to me that it was your nerve that got him running true to form once more. Wasn't all them suggestions yours?"

"No—not all. He told me first that he was sure they could do more business if the place was more up to date. Then I set my wits to work."

"Um—I see. Instead of being fed up with hats, you had time to think of Robert. Good idea."

"You talk as if I wasn't always interested in him."

"In him—yes. In his work, no! You didn't have time. Selling hats didn't leave much time to think about helping a man sell sporting goods. You've struck the right gait with Bob. Keep it up."

"I intend to—alho I shan't have much time to give him when I go back to the shop."

"Don't go back!"

Tomorrow—Up to Gerry.

GERMAN WORKERS WILL HOLD RUHR

London, April 1.—"German workmen still dominate the Ruhr district," said an Exchange Telegraph dispatch from Berlin this afternoon. "The situation is very disturbed. Bandits are looting the countryside. Fresh strikes are endangering the supply of coal. The Mueller government cannot be regarded as secure. The power of the majority socialists is passing into the hands of the trade unionists, but the workmen are returning to work."

COUPLE KILLED BY AUTO TRUCK
Canton, April 1.—Wallace Pettit and Miss Myrtle Lesh were killed and Miss Myrtle Lesh seriously hurt late last night when they were struck by a truck of the Goodrich Tire and Rubber company of Akron. Pettit was a former employee of the Northern Ohio Traction company.

Insurance Man Tells Of Friend's Recovery

"He suffered considerably from gas in stomach and colic attacks, and at times was very yellow. His doctor diagnosed his ailment as gall bladder trouble and that an operation was necessary. Someone persuaded him to try Mayr's Wonderful Remedy. Since taking it one year ago he tells me he has been able to eat anything." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Sayre and Hemphill and druggists everywhere.

ITCHING, BURNING SKIN DISEASES

Are Caused by Poisoned Blood.

Authorities are now of the opinion that many forms of eczema and eruptive skin diseases are caused by humors in the blood. This state of the blood may be due to irregular habits, improper action of the liver, kidneys, stomach or some contracted blood disease. Internal treatment that goes directly to the root of the trouble—is the most dependable means of getting a relief.

Such a treatment is Prescription C-2223, a reliable blood purifier. This splendid medicinal preparation was used for years by a successful physician in his private practice. It produced such satisfactory results for his patients and has since relieved so many thousands that it's possible that it will give you relief.

If you are now suffering the tortures of burning, itching eczema, or any eruptive skin disease, and all other medicines and doctors have failed, go to your druggist and get a \$1.50 bottle of Prescription C-2223. If two bottles do not give you sufficient benefit to justify your continuing the treatment, take the empties back to the same druggist and get the \$3.00 that you paid for the prescription.

While taking Prescription C-2223, the bowels should act regularly, to help throw off the poisons which are causing your trouble. There is nothing better than 2223 Liver Pills. They have certain tonic effects and do not sicken or gripe. One is a dose.

If your druggist will not supply you with Prescription C-2223 and 2223 Liver Pills, both will be sent you postpaid on receipts of \$1.75. Suppose you write the 2223 Laboratory, Memphis, Tenn., 132 South Second St., for literature, 1920 Almanac and sample of the Pills.
